The triumph of Fanny Elssler's Cachucha in "Le Diable Boiteux" (1836) and of the Spanish dances introduced into the last act of that ballet, together with the attractions of Spanish costumes, created a vogue for such dances. Above are typical examples of adaptations of Spanish costume. The skirt may be short or long and decorated with flounces of black lace, vertical lines of silver, or a vandyked over-skirt. The bodice is generally of satin or velvet, frequently of a different colour from that of the skirt, and may be plain or decorated with tasselled epaulets and gold or silver embroidery.

The Lure of Perfection Judith Bennahum, 2005-07-08 THE LURE OF PERFECTION FASHION AND BALLET 1780 1830 offers a unique look at how ballet influenced contemporary fashion and women's body image and how street fashions in turn were reflected by the costumes worn by ballet dancers Through years of research the author has traced the interplay between fashion social trends and the

development of dance During the 18th century women literally took up twice as much space as men their billowing dresses ballooned out from their figures sometimes a full 55 inches to display costly jewelry and fine brocade work similar costumes appeared on stage But clothing also limited her movement it literally disabled them making the dances themselves little more than tableaux Movement was further inhibited by high shoes and tight corsets thus the image of the rigidly straight long lined dancer is as much a product of clothing as aesthetics However with changing times came new trends An increased interest in natural movement and the common folk led to less restrictive clothing As viewers demanded more virtuosic dancers women literally danced their way to freedom
