Baluchistan Review December 2015 November Summary:

Balochistan and the Mélange of Violence Seema Khan, 2023-11-10 This book presents a comprehensive analysis of the intricate security situation prevailing in Balochistan. It explores and establishes correlations between the internal structural vulnerabilities and fault lines of the Pakistani state with the external influences exerted on the region. Employing a rigorous examination of both primary and secondary data, the volume critically examines the multifaceted nature of organised violence in Balochistan. In addition to separatist movements, the presence of religious militancy and cross border terrorism is thoroughly examined. The book delves into the external involvement of regional and global powers in the intricate tapestry of violence within Balochistan, thereby shedding light on the emerging geopolitical landscape and the corresponding power dynamics in the region. It also analyses how the implementation of largescale developmental initiatives, particularly facilitated by China under the auspices of the China Pakistan Economic Corridor (CPEC), has elevated the geostrategic significance of Balochistan while simultaneously entangling it in the vortex of regional power politics. This volume will be of interest to scholars and researchers specializing in geopolitics, International Relations and South Asian studies. River System

Analysis and Management Nayan Sharma, 2016-11-13 The main thrust of this book is focused on addressing the various interrelated processes, analysis and activities bearing upon sound river management. River basins are complex systems. They are open systems with sometimes ill defined boundaries. It refers to various aspects essential to achieve a sustainable development of river basins, including water demand and river management. Intensified erosion, land water degradation and stream flow pollution, which call for appropriate river restoration and training measures. A viable theory for river management must reconcile the various processes that occur at different scales in order to develop a knowledge base by synthesizing research and field studies results. The book is intended to augment the knowledge base of behaviour of rivers and analyse the issues related to rivers so as to develop river system management techniques emerging from in depth scientific analysis as a priority. This book pools together the expertise, the in depth knowledge and the experience of the people representing different disciplines bearing on the related aspects of analysis and management of river systems. Audience: The book is expected to be useful to academics, practitioners, scientists, water managers, environmentalists, administrators, researchers and students who are involved and have stakes in water management and river system analysis.

Challenge, Continuity, and Change in Pakistan Amit Ranjan, Ian Talbot, 2025-10-14 This book brings a multi disciplinary approach to studying Pakistan's contemporary political social and environmental challenges It offers insights from various disciplines to show the interconnectedness of many of Pakistan's problems and their historical roots The analysis includes issues of political alienation and exclusion vulnerability to climate change induced disasters and how such challenges might be mitigated The case studies in the book reveal that reality is complex and that demographic social and technological change is moving apace in Pakistan This dynamism points to another aspect of Pakistan and its resilience in the face of manmade and natural disasters An increasingly youthful and urbanised population is challenging social inequalities and power structures whilst the state attempts to respond in old ways to maintain order and stability The emergence of overseas Pakistani communities and their connectedness with the homeland is another growing development with ramifications for politics and society A significant contribution on critical affairs in Pakistan this book investigates if the country is moving towards a critical crossroads in its development It will be of interest to historians and political scientists of Modern South Asia as well as geographers interested in examining impact of climate change **Balochistan** Fida Hussain

Malik, 2020-10-14 Balochistan has been facing innumerable challenges since Pakistan's independence Resentment and socio political turmoil in Baloch society have been fueled by the federation's denial of Balochistan's rightful share of resources and funds a recognition of this injustice by the state has long been needed Fida Hussain Malik's book is a seminal work providing deep insights into the issues of Balochistan It will help create a deeper understanding and promote a well integrated

Federation Province relationship *Empires of Eurasia* Jeffrey Mankoff, 2022-04-19 How the collapse of empires helps explain the efforts of China Iran Russia and Turkey to challenge the international order This is a must read to understand the backstory of conflicts from Crimea to Xinjiang Fiona Hill author of *There Is Nothing for You Here* Eurasia's major powers China Iran Russia and Turkey increasingly intervene across their borders while seeking to pull their smaller neighbors more firmly into their respective orbits While analysts have focused on the role of leaders such as Vladimir Putin and Recep Tayyip

Erdo an in explaining this drive to dominate neighbors and pull away from the Western dominated international system they have paid less attention to the role of imperial legacies Jeffrey Mankoff argues that what unites these contemporary Eurasian powers is their status as heirs to vast terrestrial empires whose collapse left all four states deeply entangled with the lands and peoples along their peripheries but outside their formal borders Today they have all found new opportunities to project power within and beyond their borders in patterns shaped by their respective imperial pasts , Climate-smart agriculture profile for Balochistan, Pakistan Food and Agriculture Organization of the United Nations,Melgar, A.; Mufti, S.; Savelli, A.; Khan, M.; Giles, J.,2025-04-22 This document provides general and technical information about the province of Balochistan focusing on its geography political context economic relevance of agriculture people agriculture and livelihoods It also discusses the role of women and youth in agriculture food security nutrition health agricultural greenhouse gas emissions land use and agroecological zones The document highlights systemic challenges in the agriculture and livestock sector such as the need for strengthening agricultural support services the physical isolation of remote communities weak value chain efficiency over exploitation of land resources and inadequate climate information and early warning systems It also addresses the insufficient recognition and support for women s contributions and the impact of low human security on violent conflict and displacement The document explores the projected changes in climate including droughts floods pest and disease outbreaks earthquakes landslides and tsunamis and discusses climate smart agriculture practices for various crops and livestock systems Additionally it examines the institutions policies and finance for climate smart agriculture in Balochistan emphasizing the importance of effective institutions supportive policies and adequate financing to promote sustainable agricultural practices Overall the document provides a comprehensive overview of the challenges and opportunities in the agriculture sector of Balochistan as well as recommendations for climate smart agriculture practices and the necessary institutional and policy support Separatist Violence in South Asia Matthew J. Webb,2016-10-04 Since decolonization began in the late 1940s a series of often lengthy and destructive separatist insurgencies have imposed severe financial economic and human costs upon the states of South Asia Whereas previous analyses of these conflicts have typically focussed upon the parent state or separatist group as the relevant unit of analysis this book adopts a broader framework arguing that separatism cannot be understood in isolation from the concept of state sovereignty This book explores the motives tactics successes and failures of South Asia s separatist movements by deconstructing sovereignty into its constituent components and offers an explanation for why separatism but not political violence has recently declined in the region Taking a comparative explanatory viewpoint it offers a comprehensive review of relevant explanatory theories dominant in the scholarly literature on separatism and an examination of their application to the South Asian states of India Pakistan Sri Lanka and Bangladesh As a thought provoking discussion of statehood and sovereignty this book will be of interest to students of political theory comparative politics international relations and South Asian politics **Situation**

Analysis of Children and Women in Pakistan ,2012 *Extremism and Counter-Extremism Narratives in Pakistan* Sadia Nasir,2023-05-19 The book provides an extensive analysis of extremism extremist narratives and counter narratives and their role in consolidating exclusive religious cultural and social identities in Pakistan Focusing on the construction and institutionalization of extremist tendencies the book studies the process of the adoption of the narrow interpretation of religion and society which subsequently was equated with national identity It looks at the efforts of counter extremism narratives which tend to focus on violent extremism while overlooking non violent manifestations The author highlights that the main issue with counter narratives is the difficulty in presenting extremism and its narratives as a threat since they have been normalized with the state being part of facilitating and building them A valuable and much required contribution to the existing literature on extremism and narrative building in Pakistan this book would help students academics and policymakers in identifying the limitations of counter narratives in Pakistan while providing them with a detailed overview of extremism and extremist narratives It will also be of interest to researchers studying Security Studies and Asian Politics especially in the context of South Asia **Rights Denied: Violations against ethnic and religious minorities in Iran** ,2018 While the repression and human rights violations by the Iranian government are well documented less attention is paid to the specific situation of Iran s ethnic and religious minorities From hate speech and police intimidation to denial of fundamental rights and opportunities Iran s minorities are routinely denied equal access to justice education employment and political participation While Iran s Constitution guarantees religious freedoms it only extends these rights to Islam and three other recognized religions Christianity Judaism and Zoroastrianism leaving practitioners of other faiths including Bah Sabeen Mandaeans and Yarsanis with no guaranteed protections At the extreme end members of religious minorities in particular Iran s sizeable Bah community have been vilified arrested and even executed on account of their beliefs They are frequently punished harshly with broad charges of threatening public morality or national security resulting in long prison terms and even death sentences Ethnic minorities including Arabs Azerbaijani Turks and Baluchis have been treated as second class citizens targeted on the basis of their identity and sidelined from education health care and other basic services Minority populated regions such as Khuzestan Kurdistan and Sistan Baluchestan remain underdeveloped and excluded with higher poverty levels and poorer health outcomes These inequalities have contributed to profound discontent and resentment reflected in the arrests of thousands of peaceful demonstrators in these regions Prison data shows that at least three quarters of Iran s political prisoners are from ethnic minorities Despite some limited gestures of conciliation since the election of Hassan Rouhani in 2013 hopes of a more inclusive and rights based approach to Iran s ethnic and religious minorities have yet to be realized For this to be achieved Iranian authorities will need to embark on a more comprehensive process of reform this should include equitable economic development and political representation for minorities as well as the lifting of all restrictions on their religious and cultural rights Routledge Handbook of Environmental Impact
