Banalit Heidegger Jean Luc Nancy:

The Banality of Heidegger Jean-Luc Nancy, 2017-03-01 Heidegger and Nazism Ever since the philosopher's public involvement in state politics in 1933 his name has necessarily been a part of this unsavory couple After the publication in 2014 of the private Black Notebooks it is now unambiguously part of another Heidegger and anti-Semitism What do we learn from analyzing the anti-Semitism of these private writings together with its sources and grounds not only for Heidegger's thought but for the history of the West in which this thought is embedded Jean Luc Nancy poses these questions with the depth and rigor we would expect from him In doing so he does not go lightly on Heidegger in whom he finds a philosophical and historical anti-Semitism outlining a clash of peoples that must at all costs arrive at another beginning If Heidegger's uncritical acceptance of prejudices and long debunked myths about world Jewry shares in the banality evoked by Hannah Arendt this does nothing to lessen the charge Nancy's purpose however is not simply to condemn Heidegger but rather to invite us to think something to which the thinker of being remained blind anti-Semitism as a self-hatred haunting the history of the West and of Christianity in its drive toward an auto-foundation that would leave behind its origins in Judaism

Jean-Luc Nancy among the Philosophers Irving Goh, 2023-02-21 This volume focuses on the relational aspect of Jean Luc Nancy's thinking As Nancy himself showed thinking might be a solitary activity but it is never singular in its dimension Building on or breaking away from other thoughts especially those by thinkers who had come before thinking is always plural relational This singular plural dimension of thought in Nancy's philosophical writings demands explication In this book some of today's leading scholars in the theoretical humanities shed light on how Nancy's thought both shares with and departs from Descartes Hegel Marx Heidegger Weil Lacan Merleau-Ponty and Lyotard elucidating the sharing of voices in Nancy's phrase between Nancy and these thinkers Contributors Georges Van Den Abbeele Emily Apter Rodolphe Gasché Werner Hamacher Eleanor Kaufman Marie-Eve Morin Timothy Murray Jean-Luc Nancy and John H. Smith *The Poverty of Strategy*

Robin Holt, Mike Zundel, 2023-06-29 In challenging the world to show itself as a measured site of resources opportunities distinctions and goals strategy leaves no pause for thought it has become a small science of imposed patterns This book rescues strategy from the boundless sway of technology and thoughtlessness **Heidegger and Kabbalah** Elliot R.

Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R. Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's

entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions Heidegger and the Destruction of Aristotle Sean D. Kirkland, 2023-07-15 A bold new conception of Heidegger's project of *Destruktion* as a method of interpreting history For Martin Heidegger our inherited traditions provide the concepts through which we make our world intelligible Concepts we can also oppose disrupt and even exceed First however if Western philosophy is our inheritance we must submit it to *Destruktion* starting with Aristotle Heidegger and the Destruction of Aristotle On How to Read the Tradition presents a new conception of Heidegger's destruction as a way of reading Situated between Nietzschean genealogy and Derridean deconstruction this method uncovers in Aristotle the most vital originating articulations of the Western tradition and gives us the means to confront it Sean D Kirkland argues this is not a rejection of the past but a sophisticated and indeed timely hermeneutic tool a complex illuminating and powerful method for interpreting historical texts at our present moment Acknowledging the historical Heidegger as a politically compromised and still divisive figure Kirkland demonstrates that Heideggerian destruction is a method of interpreting history that enables us to reorient and indeed transform its own most troubling legacies *The New Yearbook for Phenomenology and Phenomenological Philosophy* Burt C. Baker, 2022-05-10 This book argues that race and whiteness are central to the construction of the modern world Constructive Theology needs to take them seriously as primary theological problems In doing so Constructive Theology must fundamentally change its approach and draw from the emerging field of Philosophy of Race Christopher M Baker develops a genealogy of race that understands whiteness as a kind secular soteriology and develops a counternarrative theological method informed by resources from Philosophy of Race He

then deploys that method to read science fiction cinema and superhero stories as cultural racial and theological documents that can be critically engaged and redeployed as counternarratives to dominant racial narratives

On Jean-Luc Nancy Darren Sheppard, Simon Sparks, Colin Thomas, 2005-08-03 This is the first book to consider the increasing importance of Jean Luc Nancy's work which has influenced key thinkers such as Jacques Derrida All his major works have been translated into English yet until now little has been made available on his place in contemporary philosophy By showing how he situates his work in a contemporary context the collapse of communism the Gulf War and the former Yugoslavia this outstanding collection reveals how Nancy's engagement with Hegel Marx Nietzsche Heidegger and Derrida makes him one of the key contemporary continental philosophers Providing new perspectives on the issues of sense art and community these essays make it impossible to approach philosophy without reference to the work Jean Luc Nancy

Heidegger and His Jewish Reception Daniel M. Herskowitz, 2020-10-08 Examines the rich and persistent Jewish engagement with one of the most important and controversial modern philosophers Martin Heidegger

Jean-Luc Nancy and the Thinking of Otherness Daniele Rugo, 2013-05-09 Jean Luc Nancy and the Thinking of Otherness is the first book in English to provide a sustained account of the relationship between Nancy Levinas and Heidegger It investigates Jean Luc Nancy's reading of Heidegger focusing on the question of Being with and starting with the problem of otherness in Heidegger the book goes on to establish a dialogue between Nancy and the philosophy of Emmanuel Levinas With intellectual agility and command of cinema literature and visual art Daniele Rugo insists on the critical significance of Nancy's project for any future philosophy attempting to define itself beyond foundational acts and according to the continuous crossings at the heart of existence By discussing Nancy alongside Heidegger and Levinas Rugo underlines the essential indecision between philosophy as literature and philosophy as the re appropriation of the question of Being Rugo offers unexpected associations which return thinking to the play of specificity rather than restricting it to the passage of abstract formulations

Thinking the Event François Raffoul, 2020-05-05 The author of The Origins of Responsibility presents a major contribution to philosophical scholarship on the very idea of the event Edward S Casey author of The World on Edge In Thinking the Event continental philosopher François Raffoul explores the question of what constitutes an event as an event not what happens or why it happens but what happening means If it's true that nothing happens without a reason as Leibniz famously posited then does this principle of reason have a reason Bringing together philosophical insights from Martin Heidegger Jacques Derrida Jean Luc Nancy and Jean Luc Marion Raffoul shows how the event in its disruptive unpredictability always exceeds causality subjectivity and reason He then goes on to examine the inappropriability of this pure event and how this inappropriability may inform ethical and political considerations In the wake of the exhaustion of traditional metaphysics the notion of the event comes to the fore with key implications for philosophy ontology ethics and theories of selfhood Raffoul's Thinking the Event is essential reading on this fascinating topic

How to Measure a World? Martin Shuster, 2021-04-06 What does it mean to wonder in awe or

terror about the world How do you philosophically understand Judaism In *How to Measure a World A Philosophy of Judaism* Martin Shuster provides answers to these questions and more Emmanuel Levinas suggested that Judaism is best understood as an anachronism Shuster attempts to make sense of this claim by alternatively considering questions of the inscrutability of ultimate reality of the pain and commonness of human suffering and of the ways in which Judaism is entangled with the world Drawing on phenomenology and Jewish thought Shuster offers novel readings of some of the classic figures of Jewish philosophy while inserting other voices into the tradition from Moses Maimonides to Theodor W Adorno to Walter Benjamin to Stanley Cavell *How to Measure a World* examines elements of the Jewish philosophical record to get at the full intellectual scope and range of Levinas's proposal Shuster's view of anachronism thereby provokes an assessment of the world and our place in it A particular understanding of Jewish philosophy emerges not only through the traditions it encompasses but also through an understanding of the relationship between humans and their world In the end Levinas's suggestion is examined theoretically as much as practically revealing what's at stake for Judaism as much as for the world *Queer Times, Black Futures* Kara Keeling, 2019-04-16 Finalist 2019 Lambda Literary Award in LGBTQ Studies A profound intellectual engagement with Afrofuturism and the philosophical questions of space and time *Queer Times Black Futures* considers the promises and pitfalls of imagination technology futurity and liberation as they have persisted in and through racial capitalism Kara Keeling explores how the speculative fictions of cinema music and literature that center Black existence provide scenarios wherein we might imagine alternative worlds queer and otherwise In doing so Keeling offers a sustained meditation on contemporary investments in futurity speculation and technology paying particular attention to their significance to queer and Black freedom Keeling reads selected works such as Sun Ra's 1972 film *Space is the Place* and the 2005 film *The Aggressives* to juxtapose the Afrofuturist tradition of speculative imagination with the similar speculations of corporate and financial institutions In connecting a queer cinematic reordering of time with the new possibilities technology offers Keeling thinks with and through a vibrant conception of the imagination as a gateway to queer times and Black futures and the previously unimagined spaces that they can conjure *Genes, Technology, and Apocalypse* Yochai Ataria, 2024-07-24 This book offers a critique of a certain contemporary discourse in popular science that consists of 1 identifying the origins and therefore essential nature of Homo Sapiens and 2 identifying the nature of technology The author's critique is that this double gesture generates a deterministic worldview man is evil and technology has its own necessity that operates to exonerate humanity from responsibility to the horrors of the 20th century epitomized in Auschwitz and Hiroshima for example The author situates this operation within what he identifies as an apocalyptic eschatological state of mind Yochai Ataria explains that the dynamics of technology and the quest for the first human are the two central vectors shaping both scientific and popular discourse today highlighting the importance of understanding the deep connection between the two *Jews Out of the Question* Elad Lapidot, 2020-11-01 In post Holocaust philosophy anti-Semitism has come

to be seen as a paradigmatic political and ideological evil Jews Out of the Question examines the role that opposition to anti-Semitism has played in shaping contemporary political philosophy Elad Lapidot argues that post Holocaust philosophy identifies the fundamental epistemological evil of anti Semitic thought not in thinking against Jews but in thinking of Jews In other words what philosophy denounces as anti Semitic is the figure of the Jew in thought Lapidot reveals how paradoxically opposition to anti-Semitism has generated a rejection of Jewish thought in post Holocaust philosophy Through critical readings of political philosophers such as Adorno Horkheimer Sartre Arendt Badiou and Nancy the book contends that by rejecting Jewish thought the opposition to anti-Semitism comes dangerously close to anti-Semitism itself and at work in this rejection is a problematic understanding of the relations between politics and thought a troubling political epistemology Lapidot's critique of this political epistemology is the book's ultimate aim

Tsimtsum and Modernity Agata Bielik-Robson, Daniel H. Weiss, 2020-12-07 This volume is the first ever collection of essays devoted to the Lurianic concept of *tsimtsum* It contains eighteen studies in philosophy theology and intellectual history which demonstrate the historical development of this notion and its evolving meaning from the Hebrew Bible and the classical midrashic collections through Kabbalah Isaac Luria himself and his disciples up to modernity ranging from Spinoza B hme Leibniz Newton Schelling and Hegel to Scholem Rosenzweig Heidegger Benjamin Adorno Horkheimer Levinas Jonas Moltmann and Derrida

The Pulse of Sense Marie Chabbert, Nikolaas Deketelaere, 2022-03-30 This volume stages a series of encounters between the French philosopher Jean Luc Nancy and leading scholars of his work along four major themes of Nancy's thought sense experience existence and Christianity In doing so the volume seeks to remind readers that Nancy's *sens* has many meanings in French aside from those that easily carry over into English i e everything to do with meaning and the senses it also includes the way they are conducted the direction they take the thrust or pulse in which the circulation of sense exists Faithful to this plural understanding of *sens* the writings collected here aim to join Jean Luc Nancy in the process of making sense that animates his thinking rather than to deliver a definitive summary of his position on any given issue They are conceived of as notes along the way documenting encounters as moments of re-direction and recording the pulse of sense that animates them In that spirit Nancy himself has provided each contribution with an echo in which he in turn responds to each author and thereby continues their mutual encounter Aside from these echoes this volume includes an original essay in which Nancy reflects upon the international trajectory of his thinking a trajectory that is to be and undoubtedly will be continued in many different directions across and around the world The chapters in this book were originally published as a special issue of *Angelaki*

Jacques Derrida and the Challenge of History Sean Gaston, 2018-11-23 This important new book argues that Jacques Derrida's work can be treated as the basis for a distinctive historiography The possibility of seeing Derrida not as a philosopher of language but as a philosopher of history has become more apparent with the recent publication of Derrida's 1964-1965 seminar Heidegger The Question of Being and History We now know that the problem of history was at the heart

of Derrida's writing in the mid 1960s prior to the publication of his best known work *Of Grammatology* 1967 Arguing that Derrida's scholarship in the 1960s and early 1970s on historicism historicity and the problem of history can be treated as the basis for a philosophy of history Sean Gaston focuses on Derrida's work from the mid 1970s to the mid 1990s and his relentless questioning of context memory and narrative as the delineation of a deconstructive historiography The book raises a challenge for historians to think about both deconstruction and historiography arguing that contemporary philosophy can provide a basis for thinking about history in the name of a deconstructive historiography that is not incompatible with rigorous historical scholarship

Heidegger and the Will Bret W. Davis, 2007-04-11 The problem of the will has long been viewed as central to Heidegger's later thought Focusing on this problem this book aims to clarify key issues from the philosopher's later period and demonstrates how his so called turn is not a simple turnaround from voluntarism to passivism

Time and Trauma Richard Polt, 2019-02-05 In this important new book Richard Polt takes a fresh approach to Heidegger's thought during his most politicized period and works toward a philosophical appropriation of his most valuable ideas Polt shows how central themes of the 1930s such as inception emergency and the question Who are we grow from seeds planted in Being and Time and are woven into Heidegger's political thought Working with recently published texts including Heidegger's Black Notebooks Polt traces the thinker's engagement and disengagement from the Nazi movement He critiques Heidegger for his failure to understand the political realm but also draws on his ideas to propose a traumatic ontology that understands individual and collective existence as identities that are always in question and always remain exposed to disruptive events Time and Trauma is a bold attempt to gain philosophical insight from the most problematic and controversial phase of Heidegger's thought
