Banking and Business in the Roman World Jean Andreau, *Banking and Business in the Roman World* Jean Andreau,1999-10-14 In the first century BC lending and borrowing by the senators was the talk of Rome and even provoked political crises During this same period the state tax farmers were handling enormous sums and exploiting the provinces of the Empire Until now no book has presented a synthetic view of Roman banking and financial life as a whole from the time of the appearance of the first bankers shops in the Forum between 318 and 310 BC down to the end of the Principate in AD 284 Professor Andreau writes of the business deals of the elite and the professional bankers and also of the interventions of the state To what extent did the spirit of profit and enterprise predominate over the traditional values of the city of Rome And what economic role did these financiers play How should we compare that role to that of their counterparts in later periods

Economics and Empire in the Roman World Matthew J. M. Coomber,2025-01-16 Over the past few decades the study of biblical economics has developed into an important subfield of biblical studies This subfield uses textual and archaeological evidence to uncover the economic realities behind biblical literature resulting in greater understandings of the lives and possible intentions of those individuals and communities that composed these religious texts and also of their potential relevance or lack thereof to the communities that continue to receive them Economics and Empire in the Roman World has brought together eight scholars of biblical economics to create a repository of what is understood about the socioeconomic realities of those who penned and first received what were to become the Christian scriptures In addition to serving the research and teaching interests of biblical scholars this volume has also been created for the benefit of economic historians anthropologists and sociologists **Empire and Political Cultures in the Roman World** , *Asceticism in the*
