From 'Stone-Age' to 'Real-Time' Martin Slama, Jenny Munro, 2015-04-24 There are probably no other people on earth to whom the image of the stone age is so persistently attached than the inhabitants of the island of New Guinea which is divided into independent Papua New Guinea and the western part of the island known today as Papua and West Papua From Stone Age to Real Time examines the forms of agency frictions and anxieties the current moment generates in West Papua where the persistent stone age image meets the practices and ideologies of the real time a popular expression referring to immediate digital communication The volume is thus essentially occupied with discourses of time and space and how they inform questions of hierarchy and possibilities for equality Papuans are increasingly mobile and seeking to rework inherited ideas institutions and technologies while also coming up against palpable limits on what can be imagined or achieved secured or defended This volume investigates some of these trajectories for the cultural logics and social or political structures that shape them The chapters are highly ethnographic based on in depth research conducted in diverse spaces within and beyond Papua These contributions explore topics ranging from hip hop to HIV AIDS to historicity filling much needed conceptual and ethnographic lacunae in the study of West Papua

Raiding the Land of the Foreigners Danilyn Rutherford, 2021-01-12 What are the limits of national belonging Focusing on Biak a set of islands off the coast of western New Guinea in the Indonesian province of Irian Jaya Danilyn Rutherford s analysis calls for a rethinking of the nature of national identity With the resurgence of separatism in the province Irian Jaya has become the focus of fears that the Indonesian nation is falling apart Yet in the early 1990s the fieldwork for this book was made possible by the government s belief that Biaks were finally beginning to see themselves as Indonesians Taking in the dynamics of Biak social life and the islands long history of millennial unrest Rutherford shows how practices that indicated Biaks submission to national authority actually reproduced antinational understandings of space time and self Approaching the foreign as a focus of longing in cultural arenas ranging from kinship to Christianity Biaks participated in Indonesian national institutions without accepting the identities they promoted Their remarkable response to

the Indonesian government and earlier polities laying claim to western New Guinea suggests the limits of national identity and modernity writ large This is one of the few books reporting on the volatile province of Irian Jaya It offers a new way of thinking about the nation and its limits one that moves beyond the conventions of both scholarship and recent journalism It shows how people can belong to a nation yet maintain commitments that fall both short of and beyond the nation state

The Limits of Meaning Matthew Engelke, Matt Tomlinson, 2006-08-01 Too often anthropological accounts of ritual leave readers with the impression that everything goes smoothly that rituals are meaningful events But what happens when rituals fail or when they seem meaningless Drawing on research in the anthropology of Christianity from around the globe the authors in this volume suggest that in order to analyze meaning productively we need to consider its limits This collection is a welcome new addition to the anthropology of religion offering fresh debates on a classic topic and drawing attention to meaning in a way that other volumes have for key terms like culture and fieldwork
