Strange Ways to Die in History Ben Gazur, 2024-04-04 Death comes for us all in the end. But it does not always come in a way you might expect. Throughout history, there have been people who have suffered extraordinary, unusual, and downright weird demises. In *Strange Ways to Die in History*, you will find out about the true stories behind unlikely stories of bizarre accidents, assassinations, and misadventures. Did a playwright really die from a tortoise being dropped on his head by an eagle? Why did an English vicar end up being eaten by lions? And what are the chances of fatality from falling into a toilet? Looking at the lives that came before the deaths reveals some of history's most fascinating individuals. Some of those examined are well known. Some are remembered only for the odd way they departed this life. Some have been forgotten entirely. Sometimes how a person dies and how history has recorded the event can tell us a lot about society and how we remember. This book uncovers eye witnesses to the deaths described and contemporary reports from those who were left behind.

Medievalism in Play Karl Fugelso, 2023 Though manifestations of play represent a burgeoning subject area in the study of post-medieval responses to the Middle Ages, they have not always received the respect and attention they deserve. This volume seeks to correct those deficiencies. Though manifestations of play represent a burgeoning subject area in the study of post-medieval responses to the Middle Ages, they have not always received the respect and attention they deserve. This volume seeks to correct those deficiencies via six essays that directly address how the Middle Ages have been put in play with regard to Alice Munro's 1977 short story *The Beggar Maid*, David Lowery's 2021 film *The Green Knight*, medievalist archaisms in Japanese video games, runic play in Norse-themed digital games, medievalist managerialism in the 2020 video game *Crusader Kings III*, and neomedieval architectural praxis in the 2014 video game *Stronghold Crusader II*. The approaches and conclusions of those essays are then tested in the second section's six essays as they examine muscular medievalism in George R. R. Martin's 1996 novel *A Game of Thrones*, the queering of the Arthurian romance pattern in the 2018-20 television show *She-Ra and the Princesses of Power*, the

Castration and Culture in the Middle Ages Larissa Tracy, 2013 Essays exploring medieval castration as reflected in archaeology law historical record and literary motifs Castration and castrati have always been facets of western culture from myth and legend to law and theology from eunuchs guarding harems to the seventeenth and eighteenth century castrati singers Metaphoric castration pervades a number of medieval literary genres particularly the Old French fabliaux exchanges of power predicated upon the exchange or absence of sexual desire signified by genitalia but the plain literal act of castration and its implications are often overlooked This collection explores this often taboo subject and its implications for cultural mores and custom in Western Europe seeking to demystify and demythologize castration Its subjects include archaeological studies of eunuchs historical accounts of castration in trials of combat the mutilation of political rivals in medieval Wales Anglo Saxon and Frisian legal and literary examples of castration as punishment castration as comedy in the Old French fabliaux the prohibition against genital mutilation in hagiography and early modern anxieties about punitive castration enacted on the Elizabethan stage The introduction reflects on these topics in the context of arguably the most well known victim of castration in the middle ages Abelard LARISSA TRACY is Associate Professor of Medieval Literature at Longwood University Contributors Larissa Tracy
