Better Library Design Ideas From Library Journal:

Better Library Design Rebecca T. Miller, Barbara A. Genco, 2016 Few librarians build more than one library in their careers and renovating or building a whole new library is a very expensive investment. Thus new or refurbished structures need to be fresh and up to date. While some librarians have the means to visit exemplary buildings as they develop their own library's master plan, most library leaders and stakeholders won't actually see the full range of potential projects. Hence this unique book is both a resource and a brainstorm prompt. It helps library leaders and key stakeholders surface the ideal programmatic aspects that drive exciting design and offer recent design solutions that have been effectively implemented. *Better Library Design* identifies and celebrates the top trends in library design capturing current state and provides an authoritative overview for those planning their own projects. This is a colorful high content survey of dynamic library building projects completed in the last five years in both public and academic settings. Anchored by Library Journal's New Landmark Libraries competition here is the nation's best examples of innovative functional appealing design all in glorious full color so you'll be both inspired and informed as you make important design choices. *Better Library Design* Rebecca T. This book provides a sound background to all aspects of library provision for 6-18 year olds. It is designed to support the strategic planning and delivery of library services and programmes at a local community level or in schools. The book outlines a vision for children's library services in the next decade and carves out a strategy for engaging with the challenges and opportunities for children's librarians and policy makers in the Google environment. This book is accessible, informative and inspiring and offers practitioners the knowledge, ideas and confidence to work in partnership with other key professionals in delivering services and programmes. It provides an evidence base which promotes and encourages the

development of effective library services for children and young people The case studies scenarios and vignettes drawn from UK and international sources show that the key issues have an international dimension and the similarities and differences in service provision will be of interest to many In addition to the two editors chapters are contributed by a range of internationally known practitioners and academics offering a wide perspective Case studies at the end of each section complement themes and practices from previous chapters while rooting the discussion in a specific context The book is organized into four parts Children s library services policy people and partnerships Connecting and engaging reaching your audience and catching the latest wave acknowledging the role of technology Buildings design and spaces libraries for children and young people Issues for professional practice Readership This book is essential reading for all senior library practitioners children s librarians and school librarians subject co ordinators and managers in schools It will also be of value for all postgraduate students on CILIP accredited library and information management courses

Planning Optimal Library Spaces David R. Moore,II, Eric C. Shoaf, 2018-01-25 Planning Optimal Library Spaces Principles Process and Practices demystifies library space planning inspires creative thinking and offers immediate how to steps to rectify seemingly hopeless situations It describes an approach to library space planning that introduces and combines a phased implementation strategy with traditional space planning to allow library transformations and renovations to be done as a single project or a series of smaller separate and more manageable phased interventions It allows libraries to meet current needs sooner as smaller funding opportunities arise instead of waiting on completely funded projects to develop Chapters cover the approach the importance of community engagement meetings collection storage strategies the anatomy of a library project budget recommendations for getting started and case studies of both public and academic library planning projects with detailed phasing strategies Printed in full color with 148 images this is a must have book for librarians architects government education administrators and anyone involved with or even thinking about a library planning or renovation project
