More Than Meets the Eye Hanna Zacks, 2011-04-12 In the book *More than Meets the Eye: A Journey into the Mysteries of Psychic Phenomena*, I invite the reader to join me in a fascinating trip to the field known as parapsychology. Parapsychology or psi phenomena are psychic events which do not lend themselves to regular explanation based on evidence provided by the senses; they are said to be extrasensory. These phenomena are telepathy, clairvoyance, psychokinesis, and precognition. Our communication is based ordinarily on hearing or reading the others' words, but in telepathic communication we are said to know the others' thoughts directly without the mediation of the senses. In clairvoyance, known also as remote viewing, we are said to see remote places without using the eyes. In psychokinesis, we are said to be able to bend, push, or break objects without touching them, and in precognition we have direct glimpses of the future. Are telepathy, clairvoyance, and other kinds of psychic phenomena real, or are they figments of an overly active imagination? And what about phenomena such as out-of-body experiences, apparitions of dead people, and reincarnation? Are such phenomena real? On the basis of my own experience, the experiences of people I had interviewed, and of information I had gleaned from books by credible
