## **Better Times Facet I Seeking Better Times:**

*Better Times - Facet I* Gary B. Boyd, 2014-05-05 Spavin Lawson enjoyed his quiet life as the leader of a team of theoretical physicist who worked for the U S Governments Temporal Ministry The quiet dedicated scientist was content with his life in Wilkes Barre Pennsylvania Together with his wife Clarissa he had a nice home and two teenaged daughters Sasha and Stephanie The experienced the epitome of the American dream Unfortunately three centuries of abuse had finally caught up with the planet The warned climate change that had been pooh poohed for more than one hundred years came crashing ashore With new sea levels and relentless hurricanes assaulting the coasts hordes of survivors were forced inland only to find that droughts had decimated the breadbasket of the world Spavin knew that the United States of the 22nd Century was not survivable His idyllic lifestyle came to an abrupt end With his family Spavin embarked upon a journey to seek better times The Lawsons journey was unlike any journey in the annals of Man *Better Times - Facet III* Gary B. Boyd, 2014-07-16

Spavin Lawson kept his promise to the united human population of 32nd Century Texas City He and his wife Clarissa had gathered the brightest minds they could find and put together the Technology Development Plan The Plan was a template to build a civilization based upon ecologically sound principles Unfortunately the completion of The Plan required a population density that did not exist in the 32nd Century Cataclysmic events a millennium earlier had reduced humans to uncivilized tribes totaling fewer than ten thousand people in what was once North America Unknown to the citizens of the new city long lost humans who were struggling to survive on Mars and Luna also assisted in the development of The Plan A secret node on the Technology Development Plan was dedicated to the eventual reunification of all Humankind Spavin could not entrust the future of his progeny and the human race to chance He knew that the two hundred year plan would need a boost at the critical point of Reunification With his family and Shadow Warrior Nevlyn Bydman he used his time dilator so he could guide the completion of The Plan and ensure Humankind would find better times **Better Times - Facet II** Gary B.

Boyd, 2014-06-06 From 32nd Century Wyoming Spavin Lawson led a group of one thousand refugees from the bunker that housed Resurgent City in a search for better times The 22nd Century Government bunker had exceeded the design specifications of its creators thanks to the leadership of its first elected Mayor A small city had expanded and prospered inside the mountain The original population of less than two hundred souls had grown into nearly five thousand Unfortunately the ancient nuclear power plant that provided the people the power to survive had leaked radiation for generations The net effect of the radiation and the cave environment had altered the population The people had developed genetic albinism with eyes well suited to the dimly lit cave city Small in stature yet curious and adaptive the Tribe followed the tall dark haired man and his wife without question The outside world was foreign and frightening but within days the people realized that The Judges of Resurgent City had held them in a grasp of religious fervor not based on factuality or reality The journey they embarked upon was destined to lead them to the coast of Texas Spavin Lawson physicist by training

believed the coast would provide better opportunities for the otherwise doomed population He reckoned that South Texas coast would allow the petite pale people to re establish the human race on Earth That location was further from the immediate geological and environmental effects of the Yellowstone super volcano eruption that had induced a global deep freeze ten centuries earlier His greatest concerns for Humankind were the long term effects of the high radiation exposures and the lack of genetic diversity

**Single Best Clue** Gary B. Boyd,2023-02-22 Police Chief Sarah James has questions Questions about a murdered John Doe Questions about an uptick in drug usage among Devaney s teens Questions about a major copper theft Questions about a multi fatality traffic accident Questions about the new Sheriff s agenda Questions about her future She engages her entire department in finding the single best clue that will solve each mystery except the last one She has to solve that one herself

*The God Plot* Gary B. Boyd,2022-08-17 Baker Standish knows his world time his reality the culmination of his history is at a crossroads He also knows he is destined to play a pivotal role in choosing the right road His experience tells him that meddling with realities can do more harm than good but from his vantage point meddling is the only reasonable choice Traitors within Lineal Chronology are hell bent on controlling the quantum elevator and the secrets that surround it Whoever controls the elevator controls reality With no one to trust Baker must discover the identities of the traitors That single task proves daunting because the traitors are not inclined to be stopped Professor Bill Jamison set Baker on his journey From all indications the journey cannot be denied Once a path is chosen small events compound to reshape the present and the future Baker must move forward as rapidly as possible even though time is seemingly on his side The risks are real and the stakes are high Failure is not an option because a reshaped reality will eliminate those closest to him

**Make Sure You're Right** Gary B. Boyd,2021-02-05 ABOUT THE BOOK Chief Sarah James is hooked on the horns of a dilemma She must decide whether the murder of a police officer or the murder of a prominent Devaney citizen takes precedence with only one detective at her disposal Multiple suspects and an interfering Mayor complicate matters Sarah must rely upon her motto the one made famous by Davy Crockett Make sure you re right then go ahead But being right is not always easy

Humanity's Vessel Gary B. Boyd,2020-10-12 Humanity One was built for one reason and maneuverability was not it The vessel was a massive biosphere that plowed its way through space guided by values established by humans long dead Captain Cesar s paradigms were rocked by the fact that the Innovators did not anticipate the possibility of an alien encounter Added to the Captain s burden was the fact that fifteen year old Maddie and her Generation 4 Group engaged in heresy that could spell failure for future generations and Humanity One s Mission Torn between the teachings of the Innovators and the radical behaviors of the Gen 4 teenagers the aging Captain struggled to find solutions to the dual dangers to humankind Either an attack by the aliens or the assault on tradition by the teens could lead to the extinction of humans and the Innovators offered no guidance to successfully resolve either danger

**Timekeeper** Gary B. Boyd,2022-02-14 Baker Standish would rather do anything than stand in front of a history classroom full of disinterested teenagers He chose a

career outside of academia His mentor Professor Bill Jamison suggested Lineal Chronology as the ideal career choice for a US History major Baker Standish was overwhelmed by his new responsibilities A Timekeeper s duties were far reaching farther than he could have ever imagined One of the hazards of the job was something HR Manager Kara Leflar called Timekeeper confusion Between the confusion and his persistent earworm Baker wondered if his career choice was a good one Against a backdrop of his own reality Baker engages in mission after mission to set the links in the chain of events that create reality in the proper order Someone is messing with the clock and it s a constant struggle to reset it **Mirror**

**Finish** Gary B. Boyd,2019-05-25 The city of Devaney is under assault Police chief Keck asks Detective Sarah James to quietly investigate the circumstances surrounding an automobile accident that took the life of Mayor Clairmont New mayor Kamen tries to force Chief Keck to change police practices to be more citizen friendly An unscrupulous new drug supplier is selling fentanyl and carfentanil laced drugs which is causing the deaths of Devaney young people A crazed bar assailant with a knife has the city on edge Detective James s two person department juggles the cases and tries to stay above the conflict between the chief and the mayor Sarah s focus is to protect Devaney s citizens and the integrity of Devaney Police Department

**Lifetime of Fear** Gary B. Boyd,2021-08-26 Space Train Engineers are a contrary lot The most contrary of all is Adin Bartlett Joint Commander Kevin Masters personally selects Adin and his Bountiful Express crew Conductor Bella Bok and Space Miner Shendo Spook Khoper for a historic assignment to mine microbes on a distant planet in Home s solar system The microbes are needed to replenish surface life on Home a planet whose loss of atmosphere has forced humans to burrow into tunnels for survival The adventure is fitting of true Home Heroes Only Spook a Technologist with unnatural intuitive abilities has reservations about the assignment Adin s only complaint is that the desk Engineers thrive on theories that don t fit and ignore realities Bella is the balance for the combination of the aggressive and tentative natures of her crewmates as the space train encounters the unknown with minimal information The adventure opens the crew s minds to unbridled fears fears that far exceed their experiences as asteroid miners and exposes them to dangers outside of human understanding The crew s complementary abilities are the only things that can bring their assignment to a safe conclusion if their assignment can be completed at all

**Life'S a Bitch** Gary B. Boyd,2017-10-18 Trey Managuas and Polly Anne Dodgems dreams were not the same but they were compatible Trey was unemployed at the age of sixty the victim of a factory closure He was too young to retire and too old to attract an employer His dream was to work until he was sixty six and retire with a comfortable nest egg for his golden years Polly Anne was an innovator and entrepreneur After years of research she had finally developed a process by which she could regenerate usable cotton fiber from textile scraps By regenerating the fiber from scraps her black box process would easily reduce the use of landfill space used for untold tons of textile waste More importantly her use of regenerated fiber would reduce the number of acres of land required to grow cotton which in turn would reduce the volume of chemicals and amount of water used to make that cotton grow Her dream was to make a difference in peoples lives

She only needed a manufacturing facility and skilled workers to commercialize her process Treys recently shuttered nonwovens factory offered the opportunity for Polly Anne to engage in manufacturing products using her regenerated cotton fiber It was a match made in heaven Praise the Lord *The Fence* Gary B. Boyd, 2018-10-31 Ephraim Calvert wanted one thing freedom from his past Without the constraints of his past looming over him like a dark cloud he could enjoy the life he deserved The Texas frontier offered the opportunity to start anew and to rid himself of his past Ephraim learned that everyone has a past and everyone has secrets Secrets define people To guard their secrets people build fences Before his struggle to build a good future on the wreckage of the past could be successful he had to understand the secrets and accept the fences Texas was worth the fight no matter the cost **Fateful Acceptance** Gary B. Boyd, 2017-02-15 A serial killer by circumstance he moves across the country to escape his demons only to find new ones in each city He desperately tries to avoid repeating his crime but the deaths keep coming He is convinced the deaths are a punishment meted out by the hand of God Detective Sarah James is relentless and eventually finds the right clues to connect the various murders he has committed She follows him doggedly in her effort to see that justice is served The killers name is never spoken but it is revealed to the attentive reader in one laughable clue *Seek and Strike* Nigel Walpole, 2020-05-30 A slice of the RAF and NATO in Germany through the Cold War covers the range of jets used by the RAF from the Vampire to the Tornado Firetrench This is an anecdotal history of the largest RAF station in Germany Optimized for a new breed of aircraft and to NATO requirements this huge airfield was cut out of the Elmpt Forest on the German border with Holland and completed in one year to become operational in 1953 First occupied by a fighter wing equipped with Vampires Sabres and Hunters its Seek and Strike motif took on real meaning when the station re equipped with strike attack and reconnaissance Canberras followed by strike attack Phantoms Jaguars and finally Tornados RAF Br ggen was at the forefront of the Cold War during which innovation and determination brought it many accolades It further distinguished itself in the Gulf War and continued to play its part in subsequent monitoring operations in that theater it was also the only Tornado Wing to operate directly from its home base during the Kosovo campaign This is the story of a station at war of the men and women at the sharp end and in support At work and play it was they who made Br ggen what it was excelling in all things and justifying a claim to have been RAF Germany s jewel in the crown With its closure in 2001 the RAF relinquished its last main operating base outside the UK Br ggen was indeed last and best A story of the people who served at Br ggen their families and the local population and how their lives were entwined with the station Flight Line Book Review **Looking for Mr. Right** Bradley Trevor Greive, 2001-07-24 With his trademark humor Australian writer Greive details women s frustrations with finding their Prince Charming in this keepsake photo essay title **Cincinnati Magazine** , 1984-05 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region New York Magazine , 1989-10-02 New York magazine was born in 1968 after a run as an insert of the New York
