The 21st Century and the Crisis of Meaning

---

William Van Dusen Wishard

The next three decades may be the most decisive 30-year period in the history of mankind. To understand why, *Between Two Ages* offers an eagle's-eye view of how the cultural, technological and spiritual tectonic plates of life have been clashing and reshaping our lives, and how civilized existence struggles with this epic transformation as we seek renewal.

## **Between Two Ages The 21st Century And The Crisis Of Meaning:**

**Between Two Ages** William Van Dusen Wishard, 2001-06-29 In *Between Two Ages* Van Wishard has provided us with a masterful synthesis of the main currents of history ranging over the centuries with an experts eye to identify the key trends in economics technology and culture that have led us to this place in time By itself this would be an important contribution to our understanding But the true significance of *Between Two Ages* lies in his placing this analysis within a profoundly moral and ethical framework Van Wishard has not simply diagnosed the reasons for our spiritual malaise He has also suggested how each of us can overcome this malaise and find a larger purpose or meaning to our lives From the foreword by Dr Mitchell B Reiss Dean of International Affairs College of William it is change at the very core of life Culture smashing change Identity shattering change Soul crushing change Prior generations faced change within a context of stable institutions that functioned more or less effectively Earlier generations had a more stable if less comfortable framework as well as more clearly defined reference points Our era doesnt have such guides for all of Americas institutions from government to family from business to religion are in upheaval The past century has seen civilized life increasingly ripped from its moorings The immutable certainties that anchored our ancestors no longer seem to hold in a world where the tectonic plates of life are clashing where human antagonisms obliterate tens of thousands of people in Africa Bosnia or Chechnya in a matter of a few days or weeks where a stray bullet ends the life of an elderly lady quietly walking home from church in Washington D C In so many ways a life that has lost its essential meaning has cut giant swaths across humanity Clearly we have been standing at a unique historical dividing line the end of the modern era as well as the Industrial Age the end of the colonial period the end of the Atlantic based economic political and military global hegemony the end of Americas culture being drawn primarily from European sources the end of the masculine patriarchal hierarchical epoch and as Joseph Campbell suggests the end of the Christian eon Obviously one era doesnt stop and a new one start in a week Yearseven decades or generations of overlap take place The sense of an age ending and something new emerging was evident during the earliest years of the 20th century In 1913 Harvard philosopher George Santayana noted The civilization characteristic of Christendom has not yet disappeared yet another civilization has begun to take its place In 1928 at the height of the Roaring Twenties historian Will Durant wrote Human conduct and belief are now undergoing transformations profounder and more disturbing than any since the appearance of wealth and philosophy put an end to the tradition

**Handbook of Faith and Spirituality in the Workplace** Judi Neal, 2012-12-09 While the field of management has developed as a research discipline over the last century until the early 1990s there was essentially no acknowledgement that the human spirit plays an important

role in the workplace Over the past twenty years the tide has begun to turn as evidenced by the growing number of courses in academia and in corporate training and an exponential increase in the publications emerging through creative interaction of scholars and practitioners in organizational behaviour workplace diversity sustainability innovation corporate governance leadership and corporate wellness as well as contributions by psychotherapists theologians anthropologists educators philosophers and artists This Handbook is the most comprehensive collection to date of essays by the preeminent researchers and practitioners in faith and spirituality in the workplace featuring not only the most current research and case examples but visions of what will be or should be emerging over the horizon It includes essays by the people who helped to pioneer the field as well as essays by up and coming young scholars Among the questions and issues addressed What does it mean to be a spiritual organization How does this perspective challenge traditional approaches to the firm as a purely rational profit maximizing enterprise Is faith and spirituality in the workplace a passing fad or is there a substantial shift occurring in the business paradigm How does this field inform emerging management disciplines such as sustainability diversity and social responsibility In what ways are faith and spirituality in the workplace similar to progressive and innovative human resource practices Does faith and spirituality in the workplace bring something additional to the conversation and if so what The aim of The Handbook of Faith and Spirituality in the Workplace is to provide researchers faculty students and practitioners with a broad overview of the field from a research perspective while keeping an eye on building a bridge between scholarship and practice

**Events That Changed History** Jamal Sanad Al-Suwaidi, This book is the second part of a comprehensive academic and research project initiated by H E Prof Jamal Sanad Al Suwaidi In the first part of the project *Eternal Imprints Figures That Made History and Others That Changed the Future of Their Countries* first published in 2016 he wrote about personalities who achieved great accomplishments to influence their countries and the world The second part of the project looks at historical events that triggered major shifts both positive and negative and changed the history of regions and countries or humanity itself In *Events That Changed History* the author revisits events that made history from the perspective that history will never repeat itself However its events may share similarities Therefore a retrospective narrative of the past is in fact an attempt to better understand the present and not a tendency to ponder on and seek refuge in the past The book examines twenty issues and events relevant to different periods of history which fall within categories such as politics the military the economy and technology Some of these events took place in the Arab region and others outside it Not content with analyzing events of the distant past the author also covers a wide range of events from recent times including the establishment of the UAE Federation in December 1971 the October War of 1973 the building of Aswan High Dam in 1970 and the attacks of September 11 2001 The book also reviews historical events in which the past present and future interplay These events are closely linked to the sweeping changes the contemporary world is witnessing which have implications for the future This book is an invitation from an intellectual who is concerned with issues relevant to both his

homeland and world an invitation to comprehensively and not selectively re read both our history and that of the world from an open and enlightened perspective in order to narrate historical events the way they happened It is our responsibility to help the new generation understand the past and present and not to be an accomplice in deceiving and confusing them which is a heinous historical crime that distorts awareness and poisons the mind *Leading Out Loud* Terry Pearce,2013-01-17
