Beyond Loss Dementia Identity Personhood:

Beyond Loss Lars C. Hydén, Hilde Lindemann, Jens Brockmeier, 2014-05-26 Coming to terms with dementia is one of the great challenges of our time This volume of new interdisciplinary essays by internationally established scholars offers new ways of understanding and dealing with it It explores views of dementia that go beyond the idea of loss and rather envisions it as multilayered transformation and change of personhood and identity and as development that mostly is socially shared with others The studies collected here identify new empirical theoretical and methodological areas that will be crucial to future research and clinical practice concerned with age related dementia Three general themes are singled out as of particular importance and interest persons and personhood identity and agency and the social and the communal

Human Dignity and Assisted Death Sebastian Muders, 2018 Assisted dying and human dignity are two extremely contested topics in Bioethics This volume offers the first book length attempt to bring both together Its authors develop detailed philosophical analyses of dignity and how it relates to assisted suicide and euthanasia **Cross-Cultural**

Perspectives on Personhood and the Life Course Cathrine Degnen, 2018-04-24 Exploring notions of the person through a wide range of anthropological literature Cathrine Degnen analyses how personhood is built affirmed and maintained during various life stages and via multiple cultural forms and practices In discussing the life course she investigates personhood as a concept at the beginning of life throughout life as lived at the edges of being and ultimately at life s end Cross Cultural Perspectives on Personhood and the Life Course moves beyond the human person in isolation to consider how personhood is fashioned with regard to place and how non humans can also be recognised as persons Through multiple ethnographic accounts Degnen shows that personhood emerges as a relational and processual entity brought into being via reciprocal fields of social relations **Body/Self/Other** Luna Dolezal, Danielle Petherbridge, 2017-07-25 Examines the lived experience

of social encounters drawing on phenomenological insights Body Self Other brings together a variety of phenomenological perspectives to examine the complexity of social encounters across a range of social political and ethical issues It investigates the materiality of social encounters and the habitual attitudes that structure lived experience In particular the contributors examine how constructions of race gender sexuality criminality and medicalized forms of subjectivity affect perception and social interaction Grounded in practical everyday experiences this book provides a theoretical framework that considers the extent to which fundamental ethical obligations arise from the fact of individuals intercorporeality and sociality **What**

Happens to Faith When Christians Get Dementia? Tricia Williams, 2021-01-25 What happens to faith when Christians get dementia Here the unique voices of Christians who live with this illness bring insight and prompt theological reflection on the profound questions that dementia asks of faith Within the boundaries of a biblical agenda these questions are explored using a model of orientation disorientation and reorientation reminiscent of Brueggemann s scheme to seek deeper understanding of faith experience and practice Arising from the research fresh theological insights and challenges for the

church call for new creative practices to enable the faith nurture of disciples of Jesus living with this disease

Counterintuitively the study reveals a growing positive experience of faith in the light of dementia highlighting the significance of Christian hope Faith does not end with diagnosis of this illness Alzheimer's Disease Memoirs Pramod K Nayar,2021-12-06 This book examines writings by people living with Alzheimer s Disease and their caregivers Its focus areas include the construction of the self in the face of diminishing linguistic and cognitive abilities the stigmatization of ageing the various narrative strategies that these texts often collaborative employ the health activism and advocacy generated via a biosociality and the ethics of care It examines the disease writing genre about a condition that ravages the ability to use language It serves as a literary examination of the work done in this area through a critical reading of the memoirs of those with AD and caregivers and a healthy dose of literary theory The book is a valuable resource for those interested in literary and critical theory and researchers in the field of ageing dementia studies

Entangled Narratives Lars-Christer Hydén, 2018 As people are living longer on average than ever before the number of those with dementia will increase Because many will live a considerable time at home with their diagnosis we need to know more about the ways people can adapt to and learn to live with dementia in their everyday lives Lars Christer Hydén argues in this book that to do so will involve reimagining what dementia really is and what it can mean to the afflicted and their loved ones One of the most important everyday opportunities for sharing experiences is the simple act of storytelling But when someone close to you gradually loses the ability to tell stories and cherish the shared history you have together this is seen as a threat to the relationship to the feeling of belonging together and to the identity of the person diagnosed Therefore learning about how people with dementia can participate in storytelling along with their families and friends helps to sustain those relationships and identities In Entangled Narratives Hydén not only emphasizes the possibilities that are inherent in collaborative storytelling but instructs professionals and otherwise healthy relatives to learn how to effectively listen and ultimately re-imagine their patients and loved ones as collaborative meaning makers in their lives

God's Not Forgotten Me Tricia Williams, 2022-05-24 What happens to faith if you get dementia Does the real you disappear Does your relationship with God evaporate as neurons begin to disconnect Will you forget God Here the voices of Christians from the evangelical tradition bring insight to the profound questions faith encounters amidst the disorientation of dementia even when my brain falls apart nothing can separate me from the love of God faith is stronger Tricia Williams seeks deeper understanding of their faith experience and practice through careful listening and theological reflection within the boundaries of a biblical agenda who I am knowing God experience and practice of faith the shadows of suffering embodied memory spiritual growth and hope for now Fresh theological insights and challenges for the church call for creative practices to nurture the faith of disciples of Jesus who live with this disease They must remind me In this book these voices reveal a growing positive experience of faith in the light of dementia and of hope in Christ Faith does not end with diagnosis God has not forgotten me

An Ethno-Social Approach to Code Choice in Bilinguals Living with Alzheimer's Carolin Schneider, 2023-12-24 This book examines the under researched field of communication by bilingual people with dementia of the Alzheimer's type DAT The aging population is increasingly affected by neurocognitive diseases such as DAT and over the past 30 years the growing research body concerned with monolingual DAT discourses has seen significant growth The findings from monolingual studies and institutional settings highlight the importance of code choice for a person's sense of autonomy especially against the background of changing communicational abilities Adding a new perspective this book investigates how ten Puerto Rican speakers living with varying stages of DAT draw on their bilingual resources to accomplish verbal interaction in informal settings with their primary care

partners Drawing on narrative interviews conducted in Orlando Florida this multi case study investigates situated language choices and code switches by applying the ethno social approach i e combining features of conversation analysis and ethnography of communication The author sheds light both on the question of how people living with DAT engage in conversations and which strategies they employ in their languages English and Spanish to reach their communicative goals Specifically by analyzing the role of code choice and code switching in a qualitative manner two main functional categories emerge discourse related and participant related code switching Bilingual competencies remain even among participants living with severe DAT symptoms as evident in retained interactional sequences such as salutations Persons living with DAT competently negotiate code either through exploratory code switching or metalinguistic commentary emphasizing the need for conversational partners to be sensitive to the communicative needs in both languages of speakers living with DAT This book will be of interest to students and researchers working on dementia discourses health communication multilingualism and ageing as well as Bilingual Multilingual families or individuals living with dementia **Dementia Reconsidered**

Revisited: The Person Still Comes First Tom Kitwood, Dawn Brooker, 2019-01-07 The original Dementia Reconsidered The Person Comes First by Tom Kitwood was published by Open University Press in 1997 It was a seminal text in the field of dementia studies and is still cited and referenced as core reading on person centred dementia care Tom died unexpectedly just 12 months after the book was published This book continues to inspire many people to challenge simplistic paradigms about dementia Since the original book was written however there have been many changes in our understanding of dementia The editor of this new edition Dawn Brooker was mentored by Tom Kitwood She has drawn together a remarkable group of writers to provide a commentary on Kitwood s work This new edition reproduces the original chapters but provides extra content from subject experts to update the book to a contemporary level Dementia Reconsidered Re visited is an ideal main text or supplementary text for all those studying or working in nursing medicine psychiatry psychology occupational therapy social work adult education gerontology and health and social care more generally This important book does three things It brings to a new generation the insight and vision of Tom Kitwood It highlights the remarkable progress we have made in recent years But most important of all it reminds us what still needs to be done if we are to fully respect the rights of people with dementia and their family care givers Kitwood inspired Alzheimer s Society to knit together research care and societal change We are now re inspired to make sure all progress is evidenced and evaluated for its impact We must realise the enormous opportunities the digital age offers people affected by dementia but in doing so constantly listen to and learn from their many and varied voices across nations and cultures Jeremy Hughes CBE Chief Executive Alzheimer s Society UK

Hospitable Witnessing Priscilla Sun Kyung Oh, 2018-06-18 Drawing on her own experience of befriending a person suffering from a long term mental health challenge Priscilla Oh reflects on the meaning of care and friendship theologically Using autoethnography she goes beyond the personal experience and examines various issues surrounding mental health

Hospitable Witnessing candidly takes readers into the everyday life of being with a mentally ill person. There are emotional challenges and contingencies in sustaining friendship and caring for a person with a long term mental health problem. Oh points out that those who care for a loved one during a long term illness inevitably experience burnout resulting from the constant care requirements. Under such an enormous disruption we need to be compassionate toward another's suffering and be willing to be present and available for them. This book suggests our need of one another and identifies three important Christian practices: caring as we are being made in the image of God, compassion as being present with the sufferer and lament as to revitalize our faith and hope. *From 'Mission-Shaped' to 'Jesus-Shaped' Church* Susan Beverley Cross, 2025-03-10

Hospitality is often invoked without question in Church of England discourse but the importance of the practice to contemporary mission has not been subject to detailed analysis. This book provides otherwise elusive in depth theological examination of the scope of Christian understandings of hospitality. From feasting in the Hebrew Scriptures and foot washing in the New Testament to online Communion during the COVID 19 pandemic, hospitality is more than welcome or the evangelistic hospitality of the Alpha Course or Messy Church. So this book encompasses racism, ageing, poverty, tragedy, storytelling, minds, bodies and belonging as well as the implications of allying food to Christian formation. It shows that Christian hospitality has relevance not only to mission but also to ecclesiology, eschatology, disability theology and social and ecological justice. *Time and Body* Christian Tewes, Giovanni Stanghellini, 2020-11-12. This book advances the development of phenomenological psychopathology and demonstrates its applicability to a spectrum of mental disorders.

Phenomenology, Neuroscience and Clinical Practice Francesca Brencio, 2024-09-13. This book offers fundamental insights into three main fields of education and expertise: phenomenology, neuroscience and clinical practice. The richness and pluralism of the contributions aim to overcome the reductionist and dualistic approach to mental health and shed new light on clinical practice. Designed as both an education tool for mental health professionals and a theoretical investigation for philosophers on the use of phenomenology in clinical practice, this book highlights the need for a new direction on mental health and more generally on human wellbeing. This volume aims to fill the gap between philosophers and mental health professionals on an educational level in a space unique in its open and transdisciplinary approach. It appeals to students and researchers but also very much to professionals and clinicians in the field. **Pragmatics in Dementia Discourse** Boyd H.

Davis, Jacqueline Guendouzi, Reyes Gómez Morón, 2014-07-08. Alison Wray notes that Alzheimer's Disease affects language in many different ways. Directly, language processing is undermined by damage to the language areas of the brain. Indirectly, language is compromised by short term memory loss, distortions in perception and disturbed semantic representation. All of this makes AD an obvious focus of interest for linguists and in particular those interested in the field of pragmatics, yet a striking amount of what is published about AD language is written by non linguists. AD language is independently researched in at least psychology, neuroscience, sociology, clinical linguistics and nursing. Each discipline has its own methods, theories

assumptions and values which affect the research questions asked the empirical approach taken in answering them and how the evidence is interpreted Without a more reliable holistic picture informed by linguistic and applied linguistic theory and methods approaches to diagnosis and care risk being constrained and may result in a less than satisfactory experience for all those whose daily life involves the direct or indirect experience of AD This book is an attempt to address some of the above issues noted by bringing together a group of researchers whose work focuses on interaction in the context of dementia The authors represent the fields of linguistics clinical linguistics nursing and speech pathology and each chapter draws on methods associated with discourse analysis and pragmatics to examine how people with dementia utilize language in the presence of cognitive decline In addition the book seeks to generate academic discussion on how researchers can move forward to focus greater attention on this topic In particular this collection will inspire researchers involved in mainstream theoretical linguistics and pragmatics to turn their attention to the discourse of dementia and investigate what it has to say about our knowledge of language theories and in addition to challenge what we know about ourselves as subjective beings
