humanity's oldest and most persistent struggles It is a must read for anyone concerned about the state of our world and the future of democracy If you like this book write a review on google books Beyond the Great South Wall: The Secret of the Antarctic Frank Savile,2022-06-13 This book is an exciting adventure story part action part archaeological A trail of strange coins leads to the Antarctic where harsh weather and strange creatures create problems Filled with danger and suspense this classic adventure story is easy to read and fast paced with a thrilling quest First published in 1901 it has stood the test of time Imprudence Florence Ethel Mills Young,2020-09-28 Now came still evening on The fading light warm and faintly glowing from the last rays of the May sun lay with a lingering mellowness upon the fields upon the light green of leafing trees upon a white froth of late blackthorn blossoming in the hedges upon the straggling township nestling in the hollow and upon the tall red brick chimneys dominating Wortheton dominating the souls sheltering beneath the clustering roofs dominating and subjugating brain and mind and body by the might of their crushing omnipotence by the strength of wealth and industry and established order gaunt chimneys rising out of the green mist of the trees grotesque symbolic landmarks index fingers witnessing in obelisk like ugliness to the power and importance of successful commercial enterprise to the dignity of capital and the drab necessity of labour to in short the disproportionate values in most existing things In the evening light between the lengthening shadows flung by the hedges along the dusty road that leads to Wortheton a girl walked listlessly a girl whose youth was marred by a look of world weary wisdom as much at variance with the young face as the tall brick chimneys with the harmonious beauty of the landscape But for that look and the sullen expression in the brown eyes the girl would have been beautiful as the scene was beautiful and the soft primrose light upon the uplands but the buoyant elasticity the hope and the freshness of youth these were lacking there remained only the pitiful fact that in years the girl was in the springtime of life and in experience more matured As she walked her sullen gaze shifted furtively from the township below to the fair open country growing momentarily dimmer and greyer as the light in the sky paled A gap in the hedge revealed a narrow path between giant elms and a cool shadowed coppice where the bracken fronds rose stiff and closely curled and dark ivy twined thickly about the tree trunks The girl turned aside into the coppice and with the fugitive instinct of hiding from the light penetrated its shaded depths and paused and leaned her arms against the gnarled trunk of a sheltering beech tree and rested her head upon her arms in dry eyed tragic sorrow In a fork of the leafy branches overhead a bird had its nest sitting in brooding satisfaction upon its delicate speckled eggs The intrusion startled it from slumber the round eyes betrayed a suspicious uneasiness and the soft warm body nestled closer over the eggs it protected Quaint thing of feathers and bright eyed watchfulness and maternal instinct with no sense of anything beyond the supreme importance of hatching those little speckled eggs drawing its unconscious comparison by the pride of elemental right to the disproportion in values in this as in other matters happy in its prospective motherhood peering timorously through the green tracery sheltering it home at the unhappy prospective human mothers with resentful eyes lifted curiously to observe its brooding content So still the girl

remained gazing upward into the deepening shadows that the little feathered mother lost her fear the sharp anxiety faded from the round bright eyes which never relaxed their unwavering vigilance even when the shadows gathering closer enveloped the still figure of the girl and wrapped her about with a hazy indistinctness that made her one with the landscape a thing of indefinite outline and colouring breathing sentient nature in harmony with inanimate nature immovable and silent as the tree against which she leaned So night settled silently over Wortheton and a wanderer stole home in its kindly shade

Vosburg Woods Paula Mills,2015-03-24 Then something happened that made her catch her breath and place her hand up to her mouth A shoulder came part way out of the darkness Now she knew she was right all along She really had seen something move out of the corner of her eye Then more of the shoulder was revealed and she

realized that whoever it belonged to was stepping into the light With a growing fear building inside she held her breath and watched as more and more of the person behind the shoulder got closer It wasnt until a portion of the head moved into the light that a chill shot through her as she finally understood who it was The chill bolted down her spine into her legs making them weak under her Her hand was now clamped across her mouth while the other became clenched into a fist She knew that this wasnt one of the others When the rest of his head had been fully illuminated she realized he had it bowed down showing only the top His long hair looked menacing with its untidy and dirty look She had to squeeze her hand tighter against her mouth to prevent a scream from escaping Then as if in slow motion he lifted his head to reveal his face And there it was His evil smile Even though he was unable to see her while she remained within the darkness of her alcove he continued to stare in her direction As if he could see through the darkness to her This is where hes been waiting for me all along Then his smile turned into a silent laugh as he lifted his arm out of the shadows revealing the knife held firmly in his hand He raised it up high so she could get a good look and then reverted back to his horrid smile She watched intently as he gingerly maneuvered the knife through the air less than an inch from his chest She wasnt sure what to do She was trapped in her alcove Even if by some miracle she was able to make it out of there and down the hallway before he was able to attack her with his knife she surely wouldnt be able to outrun the other especially with her leg slowing her down Hes going to come over here and kill me Hes showing me his knife so Ill know how hell do it It was then that he stepped completely out of his alcove and very slowly walked in her direction She froze unable to move as she watched him get closer with each step Then he suddenly stopped A little confused she observed him waiting to see what he would do next Hes taunting me standing so close with his knifethreatening me with his horrible smile But then while he was standing in the middle of the hallway he turned and looked toward the open door where one of the others was standing And then he walked in that direction

The Wall Beside the Work Derek Pigrum, 2021-06-23 This book is about the way artists generate an endless chain of substitute objects for something they can never quite find It explores the work involved in art with a focus upon finding gathering and assembling charged and auratic objects on the wall beside the work The author employs the term *Das Gegenwerk* or the work towards the work This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods The multi mode transitional practices of *Das Gegenwerk* are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate As such it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both *Das Gegenwerk* hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency A fundamental belief of the book is that by investigating and adapting the practices of expert practitioners we can gain an understanding of high level creativity It is neither a recipe nor a linear or cyclic approach Rather artistic creation is an interweave of transitional multi mode practices where the overriding emphasis is on the handling or habituation of transitional materials in physical place The author

addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows
