## **Beyond Lion Rock The Story Of Cathay Pacific Airways:**

*Beyond Lion Rock* Gavin Young, 2012-04-26 In 1946 Roy Farrell and Syd de Kantzow's beloved battered wartime DC 3 touched down in Shanghai for the first time. On board was a cargo of morning coats and toothbrushes from New York forging the first post-war supply route across the treacherous eastern Himalayas. The international airline now known as Cathay Pacific was born. Gavin Young tells the swashbuckling story of an empire of the air, a thrilling action-packed adventure that began in an era closer to Biggles and biplanes held together by wire and safety pins than to our own Pioneers like Farrell and de Kantzow. Would they think of us with envy or contempt, cruising seven miles up with hundreds of passengers, air conditioning, in-flight concerts, movies, hot four-course meals with an elaborate wine list, and all modern comforts. All this in forty years. Could the world have changed so much and so fast? This is Gavin Young himself eloquently reflecting on the extraordinary changes in air travel. There can be little doubt where his own sympathies lie.

*Hubbing for Tourists* Evan R. Ward, 2023-09-05 Dubai International Airport (DXB), Emirates Airlines and the Burj al Arab; Changi International Airport (SIN), Singapore Airlines and Marina Bay Sands; Chek Lap Kok (HKG), Cathay Pacific and The Peninsula Hotel; Kingsford Smith (SYD), Qantas Airlines and the Wentworth Hotel. What do these collective entities have in common? Not only do they link global air hubs with city-centric, long-haul airlines and destination-worthy hotels, but they are the product of a distinct strategy to boost tourism development through the synergies created by aviation development. This volume explores the evolution of tourism development through synergies created by airline, airport, and hotel development in the Persian Gulf, namely Dubai; Southeast Asia, primarily Singapore; and East Asia, mainly Hong Kong, during the twentieth and twenty-first centuries. These hubs included but went beyond traditional models of hotel development as models for economically viable tourism programs, particularly after World War II. The book also examines how such systems integrated travelers, airlines, and airports in Australasia and Europe while at the same time competing with imperial systems of airport and airline development. This book illuminates the strategies behind and competition between cities during the current century for air traffic, tourists, and airlines transiting between Europe, Southeast Asia, and Australasia.

**Hong Kong Takes Flight** John D. Wong, 2024-11-01 Commercial aviation took shape in Hong Kong as the city developed into a powerful economy. Rather than accepting air travel as an inevitability in the era of global mobility, John Wong argues that Hong Kong's development into a regional and global airline hub was not preordained. By underscoring the shifting process through which this hub emerged, *Hong Kong Takes Flight* aims to describe globalization and global networks in the making. Viewing the globalization of the city through the prism of its airline industry, Wong examines how policymakers and businesses asserted themselves against international partners and competitors in a bid to accrue socioeconomic benefits, negotiated their interests in Hong Kong's economic success, and articulated their expressions of modernity.
