Beyond Systemic Discrimination Päivi Gynther, 2007-11-30 This coherent and pragmatically relevant monograph examines the soundness of the legal framework in education Deriving from the disadvantage doctrine it presents an analytical scheme for diagnosing whether or not domestic education law is in harmony with international human rights and minority rights law The book examines law as a system and focuses on the reported perpetuation of educational disadvantage among Roma all over Europe This focus suggests that minority individuals falling into several partly overlapping categories may become subjected to educational discrimination even by states that appear to fulfil relevant international standards A functional approach to skills acquisition is suggested as a constructive way forward towards sustainable and inclusive education systems

Beyond Redress: Prioritising the Child's Best Interests to Achieve Equality before the Law in South Africa Salatiso, 2024-07-06 In democratic South Africa Beyond Redress emerges as a beacon of hope illuminating a path towards true equality and justice This groundbreaking work delves deep into the heart of the nation's ongoing struggle for reconciliation challenging the conventional wisdom surrounding redress policies and their impact on children The book's central thesis is both provocative and compelling that well intentioned policies designed to redress the injustices of apartheid have inadvertently perpetuated inequality and exacerbated social ills By meticulously examining the unintended consequences of affirmative action Black Economic Empowerment BEE and other race based initiatives the author reveals a troubling reality that these policies have often benefited a privileged few while leaving the majority of South Africans particularly the born free generation mired in poverty and disadvantage Beyond Redress confronts the

uncomfortable truth that the pursuit of redress has sometimes come at the expense of the best interests of the child The book highlights how discriminatory practices even those sanctioned by the state in the name of fair discrimination can have devastating consequences for children s development education and future prospects Through poignant anecdotes and compelling data the book paints a vivid picture of the challenges faced by the born free generation and their children It reveals how the burden of redress policies often falls disproportionately on the shoulders of these young people limiting their opportunities and perpetuating a cycle of disadvantage But *Beyond Redress* is not simply a critique of the status quo it is a call to action a blueprint for a more just and equitable future The author proposes a radical reimagining of South Africa s approach to redress one that prioritizes the best interests of the child above all else This child centric approach recognizes that every policy decision ultimately impacts the lives of children At the heart of this vision is a shift away from race based policies towards a merit based system that rewards individual potential and achievement By focusing on individual capabilities rather than immutable characteristics South Africa can create a truly inclusive society where everyone has the opportunity to succeed based on their own merit
