Iris Murdoch: Philosophical Novelist Miles Leeson, 2011-10-27 This book provides a concise and highly readable reassessment of Iris Murdoch's engagement with philosophy throughout her life and proposes that she was most importantly a philosophical novelist By

investigating her use of philosophical argument in her fictional writing it becomes clear that her narratives always depend upon a strong metaphysical underpinning Leeson proceeds thematically through the philosophical phases of Murdoch's life and develops a clear argument that Murdoch reacts against the philosophies of Sartre Plato Nietzsche and Heidegger not only in her philosophical writings but also in her fiction Indeed it is in her fiction that her philosophical argument is most persuasive and accessible This timely study provides new information regarding Murdoch's engagement with Martin Heidegger and also provides a detailed critique of critics who have overlooked Murdoch's engagement with philosophy within her fiction *Iris Murdoch and the Literary Imagination* Miles Leeson, Frances White, 2023-07-25 This volume is the third volume in Palgrave Macmillan's new Iris Murdoch Today scholarly series *Iris Murdoch and the Literary Imagination* is the first major collection of literary essays since her centenary in 2019 It brings together leading Murdoch scholars from across the world who expand the boundaries of recent criticism offering work not only on the novels but on her unpublished poetry and archival materials This collection discusses her interest in and use of Japanese literature her relationship with and reader response to her in Australia Murdoch in the post metoo era her lifelong interest in the supernatural same sex relationships and friendships as well as the use and abuse of biographical material The collection widens the field of Murdoch studies and marks a new waypoint in the development of her critical reception *Iris Murdoch and Morality* Anne Rowe, 2015-12-04 *Iris Murdoch and Morality* provides a close focus on moral issues in Murdoch's novels philosophy and theology It situates Murdoch within current theoretical debates and develops an understanding of her work as a crucial link between twentieth and twenty first century writing and theory *An Introduction to the Gawain Poet* John M Bowers, 2021-08-01 In *An Introduction to the Gawain Poet* John Bowers surveys an expanded selection of the works of Chaucer's anonymous contemporary considering *Sir Gawain and the Green Knight* alongside the poet's lesser known but no less brilliant works In addition to his succinct introductions and plot summaries Bowers skillfully details the cultural historical political and religious contexts for these works synthesizing them with close reading of selected passages Perhaps his most exciting contribution to the field is his choice to historicize the poet's life and works in the context of the royal culture of King Richard II boldly contending that it was highly possible the *Gawain Poet* was a frequent visitor to Richard's court in London The final chapter surveys the works influenced by as well as the influences reflected in the poet's work from the Bible to *The Lord of the Rings* The attention Bowers pays to the critical tradition that has developed around these texts over the past hundred years makes *An Introduction to the Gawain Poet* an ideal volume for both undergraduate students and scholars of the *Gawain Poet* Bowers has marshaled his formidable skills to create a book impressive in its balanced combination of breadth and depth *Iris Murdoch and Remorse* Frances White, 2023-11-24 This exploration of the crucially important role played by remorse in Iris Murdoch's philosophical theological and political thinking identifies it as a critical concept in her moral psychology and a recurrent theme in her art Through engagement with Simone Weil current theories of

Iris Murdoch and the Others Paul S. Fiddes, 2021-12-02 The others examined by Fiddes are mainly those with whom Murdoch entered into explicit dialogue in her novels and philosophical writing including Immanuel Kant Simone Weil Dietrich Bonhoeffer Rudolph Bultmann Paul Tillich Don Cupitt Donald Mackinnon and Jacques Derrida This historic dialogue is however placed within a wider dialogue between literature and theology being conducted by the author and others are brought into relation with Murdoch in order to illuminate this more extensive conversation notably the poet Gerard Manley Hopkins and the feminist philosopher Julia Kristeva The book demonstrates that characteristic themes in Murdoch's novels and philosophy the love of the Good the death of the ego illusory consolations the death of God the modifying of the will by waiting the sublime and the beautiful and attention to other things and persons all take on a greater meaning when placed in the context of her life long conversation with theology The exploration of this context is deepened in this volume by reference to annotations and notes that Murdoch made in a number of theological books in her personal library

Post-War British Women Novelists and the Canon Nick Turner, 2011-11-03 With the increasing number of books on contemporary fiction there is a need for a work that examines whom we value and why These questions lie at the heart of this book which by focusing on four novelists literary and popular interrogates the canon over the last fifty years The argument unfolds to demonstrate that academic trends increasingly control canonicity as do the demands of genre the increasing commercialisation of literature and the power of the literary prize Turner argues that literary excellence demonstrated by style and imaginative power is often missing in many works that have become modern classics and makes a case for the value of the universal in literature Written in a jargon free style with reference to many supporting writers the book raises a number of significant cultural questions about the arts fashions and literary reputations of interest to readers in contemporary literary studies

The Epistemological Perspective of the Pearl-Poet Piotr Spyra, 2016-02-17 Original and engaging this study presents the four anonymous poems found in the Cotton Nero MS Pearl Cleanness Patience and Sir Gawain and the Green Knight as a composite text with a continuous narrative While it is widely accepted that the poems attributed to the Pearl Poet ought to be read together this book demonstrates that instead of being analyzed as four distinct though interconnected textual entities they ought to be studied as a single literary unit that produces meaning through its own intricate internal structure Piotr Spyra defines the epistemological thought of Saint Augustine as an interpretive key which when applied to the composite text of the manuscript reveals a fabric of thematic continuity This book ultimately provides the reader with a clear sense of the poet's perspective on the nature of human knowledge as well as its moral implications and with a deeper understanding of how the poems bring the theological and philosophical problems of the Middle Ages to bear on the individual human experience

Which Face of Witch Adriana Madej-Stang, 2015-06-18 For centuries the figure of the witch represented the hostile and feared other on the edge of human society placed in between the world of people and the world of demons Whether she stood for the untamed powers of nature dark powers of knowledge or magic or evil powers derived from the devil she was always identified with fear as a disturbance as a danger to the order of society and to the well being of those who understood themselves as settled within the borders of the patriarchal order and its psychological and sexual corselet In this role the witch appeared in numerous literary works including among others writings by Chaucer Shakespeare and Middleton However since the 1840s the image of the witch has undergone enormous transformations mainly due to the influence of various matriarchate theories and of feminist ideas The witch reclaimed by women for women became an identification figure and representative of their expectations fears hopes and claims This study investigates examples of witches in publications by contemporary British women writers to see how this figure is perceived related to and utilised in their respective texts Iris Murdoch Jeanette Winterson Angela Carter and Fay Weldon among others

refer consistently to this witch figure whom they interpret in various creative and surprising ways adopting innovative approaches to this comparably ancient figure
