

Muting the Microphone

During a conversation, you can temporarily mute your phone's microphone off, so that the other party cannot hear you.

Example: You want to say something to another person in the room but do not want the other party to hear you.

To **mute your microphone**, press the **Mute** soft key during the conversation. The 'Call Muted' appears on the LCD.

To **restore the microphone**, press the **Mute** soft key again. You will restore the normal condition.

Amplification Function

Your phone is equipped with a specialized amplification function designed to fit your needs. During a conversation you can adjust the **Volume** or **Gain** control on the left side of the handset and use the **AMP** key on the right side. You can also adjust the **Tone** control to fit the levels to your hearing requirements. The selected volume will be displayed on the LCD.

When you press the **AMP** key in receiver mode during a conversation, the Amplify indicator on the handset lights on. If you press the **AMP** key again, the indicator will go out.

Please note that the default setting is: Volume 3, Tone 3, Amplify Off.

You can also select the exposure volume or the speaker volume by the **Audio Setup** in Menu under **HS Settings**, as described in page 38.

Registration

The supplied handsets are already registered with the number 1 and 2. You can register up to 5 handsets to the same base in order to share the same line with other people.

Before registering a handset to the base, you should press and hold base unit **Ⓢ** key for about 5 seconds then release it.

1. Press the **Mute** soft key.
2. Press Up **Ⓢ** key or Down **Ⓢ** key repeatedly to choose the **Registration** menu, press the **Select** soft key.
3. Use Up **Ⓢ** key or Down **Ⓢ** key to scroll through the base names list, press the **Select** soft key to choose a base to your necessity. The handset will search for the requested base and the relevant information will flash on the LCD.

4. If the base is found, and the handset is successfully registered, you will be prompted to enter the PIN code (the default one is 0000). Enter it then press the **Select** soft key. If the PIN code is correct, the Registration tone will sound and then the base assigns a number to the handset, otherwise a warning tone will sound, and then the handset returns to the previous registration state.
5. If the base is not found, the handset will behave according to the Out of Range condition.
