Aaron Siskind Another Photographic Reality:

Aaron Siskind ,2014-11-15 Aaron Siskind 1903 1991 was a major figure in the history of American photography A leading documentary photographer who was active in the New York Photo League in the 1930s Siskind moved beyond the social realism of his early work as he increasingly came to view photography as a visual language of signs metaphors and symbols the equivalent of poetry and music Through the forties and fifties he developed new techniques to photograph details and fragments of ordinary commonplace materials This radical new work transformed Siskind s image making from straight photography to abstraction from documentation to expressive art His concern with shape line gesture and the picture plane prompted immediate comparison with abstract expressionist painting particularly with the art of Franz Kline and Robert Motherwell It took some years for Siskind s unprecedented photography to gain full acceptance but by the 1970s he was an acknowledged master publishing and exhibiting widely Siskind was also one of the founding donors who established the archive at the Center for Creative Photography Aaron Siskind s oeuvre is so original that it defies classification and it has not received the sustained critical attention that it richly merits In fact there are no other books on Siskind currently in print Aaron Siskind presents the first complete retrospective of this legendary photographer It highlights important rarely published bodies of work from Harlem from Bucks County architecture and from the Tabernacle Gloucester Martha s Vineyard Louis Sullivan and Pleasures and Terrors of Levitation photo series The book also includes an introduction by Gilles Mora an expert on modern American photography and texts by critic and photographer Charles Traub This study based on the Siskind archives at the Center for Creative Photography and supported by the Aaron Siskind Foundation fills a resounding editorial void around one of the most challenging and important figures in the art of American photography

Whence Veracity?** Michael Shapter,2018-10-09 For decades people have made certain assumptions about photographs the primary one being that they are truthful in depicting reality While this is true in many cases it is not always so This book traces the rise of photography s perceived veracity It shows why a combination of pre knowledge of early developments in imagery a persistent marketing campaign espousing the accuracy of photographs and a perception by users that what they got from their photographs was an accurate depiction acted to create the belief in the photograph s veracity The book uses philosophy physiology psychology and photography to tell this story and concludes by describing a system of identification that could be used to separate images that are not always what they seem The turbulence caused to photography with the introduction of digital imaging is described and is the impetus for the beginning of the discussion about where photography sits today amongst other images **Photographs by Aaron Siskind in Homage to Franz Kline** Aaron Siskind,1975 **The Photography Handbook** Terence Wright,2013-09-13 This text provides an introduction to the principles of photographic practice and theory It also explores the history of lens based picture making and examines the medium s characteristics scope and limitations The Focal Encyclopedia of Photography Michael R. Massood,2013-01-22 Making a Promised Land examines the interconnected histories of African American representation urban life and citizenship as documented in still and moving images of Harlem over the last century Paula J Massood analyzes how photography and film have been used over time to make African American culture visible to itself and to a wider audience and charts the ways in which the Mecca of the New Negro became a battleground in the struggle to define American politics aesthetics and citizenship Visual media were first used as tools for uplift and education With Harlem s downturn in fortunes through the 1930s narratives of black urban criminality became common in sociological tracts photojournalism and film These narratives were particularly embodied in the gangster film which was adapted to include stories of achievement economic success and later in the century a nostalgic return to the past Among the films discussed are Fights of Nations 1907 Dark Manhattan 1937 The Cool World 1963 Black Caesar 1974 Malcolm X 1992 and American Gangster 2007 Massood asserts that the history of photography and film in Harlem provides the keys to understanding the neighborhood s symbolic resonance in African American and American life especially in light of recent urban redevelopment that has redefined many of its physical and demographic contours **Photography: A Very Short Introduction** Steve Edwards,2006-08-24 Photographs are an integral part of our daily lives from snapshots and tabloid newspapers to art photography in galleries and exhibitions Edwards combines a sense of the historical development of photography with an insightful analysis of its purpose and meaning within a wider cultural context *Visual Culture* Richard Howells,Joaquim Negreiros,2019-03-05 This is a book about how to read visual images from fine art to photography film television and new media It explores how meaning is communicated by the wide variety of texts that inhabit our increasingly visual world But rather than simply providing set meanings to individual images Visual Culture teaches readers how to interpret visual texts with their own eyes While the first part of the book takes readers through differing theoretical approaches to visual analysis the second part shifts to a medium based analysis connected by an underlying theme about the complex relationship between visual culture and reality Howells and Negreiros draw together seemingly diverse methodologies while ultimately arguing for a polysemic approach to visual analysis The third edition of this popular book contains over fifty illustrations for the first time in colour Included in the revised text is a new section on images of power
