From Blavatsky to Krishnamurti: "It is Finished" Al Boag, 2025-09-16 This book highlights some important continuities as well as differences between the teachings of Helena Petrovna Blavatsky 1831 1891 co founder of the Theosophical Society in 1875 and Krishnamurti Jiddu 1895 1986 the Theosophist who was trained to be the World Teacher Until now very little has been written of the importance to Blavatsky of an esoteric eschatology and Christology and their relation to the secret core of her Path of Initiation the practice of an occult breathless meditation Similarly scholarly research has overlooked the evidence that Krishnamurti eviscerated the secret core of Blavatsky's teaching with his own esoteric interpretation of it which exists in his published work as the camouflaged core of his teaching Offering a fresh appraisal this work draws on careful exploration of the primary source material of Blavatsky and Krishnamurti as well as his Theosophical mentors Annie Besant 1847 1933 and Charles Webster Leadbeater 1854 1934 It will be of particular interest to students and scholars of esotericism new religious movements and the history of religions *The Blavatskian and Biblical Roots of Krishnamurti's Imagined Role* Al Boag, 2025-09-16 This book focuses on Jiddu Krishnamurti 1895 1986 and charts the development of his teaching It covers the period from 1922 when Krishnamurti claimed he was God until his death including his declarations to be the World Teacher and eventual departure from the Theosophical Society The author explores the understanding transmitted to

Krishnamurti by his mentors as an inheritance from Helena Petrovna Blavatsky 1831 1891 the Theosophical Society co founder who is associated with the practice of occult breathless meditation This book highlights that Krishnamurti s writings and talks reveal his unacknowledged appropriation of the vocabulary of profound biblical motifs It considers how Krishnamurti fashioned his life and teaching on the New Testament Gospels composite biography of Jesus and on biblical eschatological and Christological texts The study will be of particular interest to students and scholars of esotericism new religious movements and the history of religions

Terror and Performance Rustom Bharucha,2014-04-16 This work goes where other books fear to

tread It reaches the parts other scholars might imagine in their dreams but would neither have the international reach nor the critical acumen and forensic flourish to deliver Alan Read King s College London This book is not only timely It is overdue and it is a masterpiece unrivalled by any book I know of Erika Fischer Lichte Freie Universit t Berlin The first and only book that focuses on the intersections of performance terror and terrorism as played out beyond a Euro American context post 9 11 It is an important work both substantively and methodologically Jenny Hughes University of Manchester A profound and tightly bound sequence of reflections a rigorously provocative book Stephen Barber Kingston University London In this exceptional investigation Rustom Bharucha considers the realities of Islamophobia the legacies of Truth and Reconciliation the deadly certitudes of State controlled security systems and the legitimacy of counter terror terrorism drawing on a vast spectrum of human cruelties across the global South The outcome is a brilliantly argued case for seeing terror as a volatile and mutant phenomenon that is deeply lived experienced and performed within the cultures of everyday life On Living and Dying J. Krishnamurti,2005 Biography of Louis Armstrong African American jazz trumpeter who took jazz into new and exciting realms *Action* Jiddu Krishnamurti,2000-12 Krishnamurti offers radically different answers to questions about relationship with others and why we do not act with clarity and intelligence He says Surely true action comes from clarity When the mind is very clear unconfused not contradictory within itself then action inevitably follows from that clarity The Awakened Ones Gananath Obeyesekere,2012 While a rational consciousness grasps many truths Gananath Obeyesekere believes an even richer knowledge is possible through a bold confrontation with the stuff of visions and dreams Spanning both Buddhist and European forms of visionary experience he fearlessly pursues the symbolic nonrational depths of such phenomena reawakening the intuitive creative impulses that power greater understanding Throughout his career Obeyesekere has combined psychoanalysis and anthropology to illuminate the relationship between personal symbolism and religious experience In this book he begins with Buddha s visionary trances wherein over the course of four hours he witnesses hundreds of thousands of his past births and eons of world evolution renewal and disappearance He then connects this fracturing of empirical and visionary time to the realm of space considering the experience of a female Christian penitent who stares devotedly at a tiny crucifix only to see the space around it expand to mirror Christ s suffering Obeyesekere follows the unconscious motivations underlying rapture the fantastical consumption of Christ s body and blood and body mutilation and levitation bridging medieval Catholicism and the movements of early modern thought as reflected in William Blake s artistic visions and poetic dreams He develops the term dream ego through a discussion of visionary journeys Carl Jung s and Sigmund Freud s scientific dreaming and the cosmic and erotic dream visions of New Age virtuosos and he defines the parameters of a visionary mode of knowledge that provides a more elastic understanding of truth A career culminating work this volume translates the epistemology of Hindu and Buddhist thinkers for western audiences while revitalizing western philosophical and scientific inquiry **Contemporary Spiritualities** Clive Erricker,Jane

Erricker,2001-08-01 Spirituality can be understood within both a religious and secular context Fuelled by the controversy that surrounds different understandings of human identity and notions of progress knowledge and truth in modernist and postmodernist contexts the concept of spirituality is a hotly contested topic of debate as to its relevance within contemporary culture and its meaning within religious traditions This book aims to inform readers on this debate and contextualize it within these different frames of reference It approaches the topic of spirituality with an identification of the major influences on contemporary thinking and presents a coherent framework of understanding that links divergent thinking into a common goal Writings range across different thinkers and practitioners within established religious tradition contemporary movements and those who operate within psychological and secular understandings Focusing on the question what does it mean to be human this engaging study attempts to overcome the divide between secular and religious understandings of spirituality

The Mystery of Reality Christopher G. Smith, 2012-12-01 This book is life changing and will challenge your concept of who you are One of the aims of The Mystery of Reality is to explore the concept of what it means to be a self This is a process that is far from straightforward and is paradoxical When you become aware of the issues that affect the concept of a self you come to realise that life can be lived from two perspectives that may be viewed as authentic or inauthentic Authentic living can be achieved through a process of faith which may be viewed as a commitment to what is of ultimate concern This is embryonic within the timeless spiritual reality we call love that seeks expression psychophysically within the context of everyday living in time and space This enables you to access the courage to be yourself However life is complex and reality is such that it is difficult to live permanently from a perspective that is completely authentic Distinguished authors such as Richard Dawkins and Sam Harris have published books in recent years with the specific purpose of promoting atheism and denigrating religious faith as an irrational process Whilst acknowledging many of the arguments that they make in challenging the concept of a theistic God this book makes a case for religious faith that is not based on theistic beliefs does not rely on revealed truth and is consistent with current scientific thinking about the nature of the universe It is a radical approach which combines the eastern concept of the selflessness of consciousness with the western concept of faith as ultimate concern The Mystery of Reality seeks to establish a rational foundation for religious faith that makes it intelligible to people living in the twenty first century It addresses issues which are of fundamental importance to our happiness and the way life is lived **J.**

There is the way and not ways This is about the learning of our consciousness in its movement as it is which basically is movement of feelings and sensations That is the learning of life per se is possible only in the fire of observation of feelings and sensations with skill and diligence involving the awakening of bodhi or intelligence on its own from nowhere and their emptying We need to understand this absolutely clearly Look you drive a car by learning driving skills how a car works traffic rules etc however when you drive a car if you miss attention for a second you will have an accident Attention cannot be learned and achieved by any gradual preparation learning some methodology or science Thought has no role in learning about and coming to attention Attention can use thought and its skills in different fields but not vice versa Round the other way inwardly thought has no potential to behold the movement of feelings as they are and the tremendous speed of sensational waves and learning life beyond the known Understand this well and realize the futility of different ways traditions beliefs in the name of religion The sense of siddhas and buddhas is the way of attention or meditation and virtue which is not such a difficult thing to understand and to live with Our ears listen and eyes see and it is not that somebody else s eyes listen ears see That is the part of religion In attention in right meditation with skill and diligence you are open to learning the infinite depths and mysteries of life And this text is a rare guide that shows what easy sweet and natural way or flowering of meditation is The water of the word is ambrosia not yet drunk learn about pain and sorrows in the blood Nath says this wisdom is peerless look behold don t fall in the pit Gorakh Sabadi 303
