The Last Man Mary Wollstonecraft Shelley, 1998-07-16 The last man I may well describe that solitary being's feelings feeling myself as the last relic of a beloved race my companions extinct before me Mary Shelley Journal May 1824 Best remembered as the author of *Frankenstein* Mary Shelley wrote *The Last Man* eight years later on returning to England from Italy after her husband's death. It is the twenty-first century and England is a republic governed by a ruling elite one of whom Adrian Earl of Windsor has introduced a Cumbrian boy to the circle. This outsider Lionel Verney narrates the story a tale of complicated tragic love and of the gradual extermination of the human race by plague. *The Last Man* also functions as an intriguing roman à clef for the saintly Adrian is a monument to Percy Bysshe Shelley and his friend Lord Raymond is a portrait of Byron. The novel offers a vision of the future that expresses a reaction against Romanticism as Shelley demonstrates the failure of the imagination and of art to redeem her doomed characters.

Bysshe Shelley although other minor characters such as Merrival bear traces of Percy as well Lord Raymond who leaves England to fight for the Greeks and dies in Constantinople is based on Lord Byron The novel expresses Mary Shelley's pain at the loss of her community of the Elect as she called them and Lionel Verney has been seen as an outlet for her feelings of loss and boredom following their deaths and the deaths of her children It appears that Shelley found inspiration for the title of her novel in Jean Baptiste Cousin de Grainville's *Le Dernier Homme* 1805 translated into English in 1806 as *Omegarus and Syderia* Failure of romantic political ideals The Last Man not only laments the loss of Shelley's friends but also questions the Romantic political ideals for which they stood In a sense the plague is metaphorical since the revolutionary idyll of the lite group is corroded from within by flaws of human nature As literary scholar Kari Lokke writes in its refusal to place humanity at the center of the universe its questioning of our privileged position in relation to nature then The Last Man constitutes a profound and prophetic challenge to Western humanism Specifically Mary Shelley in making references to the failure of the French Revolution and the Godwinian Wollstonecraftian and Burkean responses to it attacks Enlightenment faith in the inevitability of progress through collective efforts Isolation Hugh Luke argues that By ending her story with the picture of the Earth's solitary inhabitant she has brought nearly the whole weight of the novel to bear upon the idea that the condition of the individual being is essentially isolated and therefore ultimately tragic xvii Shelley shares this theme of tragic isolation with the poetry of Lord Byron and William Wordsworth Science and medicine Just as her earlier and more well known *Frankenstein* 1818 engaged with scientific questions of electromagnetism chemistry and materialism The Last Man finds Shelley again attempting to understand the scope of scientific inquiry Unlike the earlier novel's warnings about Faustian overreaching this novel's devastating apocalypse strongly suggests that medicine had become too timid and ultimately too late The ineffectual astronomer Merrival for example stands in stark contrast to the frighteningly productive Victor Frankenstein Shelley's construction of Lionel Verney's immunity remains a subject of significant critical debate but the novel certainly demonstrates a deep understanding of the history of medicine specifically the development of the smallpox vaccine and the various nineteenth century theories about the nature of contagion
