A Writers Time Making The Time To Write:

Making Time to Write Cathy Mazak, 2022-05-03 The revolutionary guide to putting women s writing and their careers first

Time to Write John Sylvester Lofty, 2015-02-10 Analyzes interviews with students teachers and administrators to develop a new set of literacies essential for student success in the digital age To read John s work is to take on the role of a patient listener A book like a piece of music is scored for time and I feel Time to Write is scored adagio I believe that Time to Write can be read as a critique of the time chopping approach to education and an argument for presence for being fully open to experience for being there To do good work we must enter something like island time or what John calls existential time or what is sometimes called flow when we lose at least temporarily a sense of clock time from the Foreword by Thomas Newkirk Twenty five years ago John Sylvester Lofty studied the influence of cultural time values on students resistance to writing instruction in an isolated Maine fishing community For the new edition of Time to Write Lofty returned to the island to consider how social and educational developments in the intervening years may have affected both local culture and attitudes toward education Lofty discovered how the island time values that previously informed students literacy learning have been transformed by outside influences including technology social media and the influx of new residents from urban areas Building on the ethnographic findings of the original study the new edition analyzes the current conflict between the digital age time values of constant connections and instant communication and those of school based literacy Lofty examines the new literacies now essential for students in a technologically connected world both those who aspire to continue the traditional island work of lobster fishing and for the many who now choose to pursue other careers and attend college on the mainland

Journal Article Writing and Publication Sharon A. Gutman, 2024-06-01 The ability to demonstrate that a specific health care profession provides valuable and effective services that meet society's health needs is a major objective for all health care academicians and researchers. Such skills are critical to ensure service reimbursement from an increasingly small pool of health care dollars. Demonstrating clinical effectiveness depends on the reporting of written research results through journal publication so that the health care community and larger society will be able to access and read evidence supporting health care services. Today several clinical reporting standard guidelines have been created by researchers to enhance the ability of readers to evaluate the quality and value of studies. *Journal Article Writing and Publication* is the first text to compile those clinical research reporting standards in one source and helps educators and novice researchers to better understand the skills needed for journal publication. Health care researchers must begin using these reporting standards in order to write manuscripts that are both correctly formatted and transparently convey all critical study strengths and limitations. Educators must teach these reporting standards to students who must evaluate research reports as consumers and possible future contributors to the literature through their own writing. *Journal Article Writing and Publication* by Dr. Sharon A. Gutman, a former editor of the *American Journal of Occupational Therapy*, provides specific guidelines based on the most commonly accepted reporting standards for the preparation and writing of general research studies, intervention effectiveness studies, instrument development and testing studies, and case reports. A section is devoted to helping authors understand the rules governing the reporting of statistical data in text and tables. Separate sections help authors understand the manuscript preparation and submission process, the revision process, and the etiquette guiding communication with editors and reviewers. Guidelines for the preparation of scholarly discussion papers and editorials are also provided. *Journal Article Writing and Publication* also features a section that aims to help doctoral students and newly minted faculty turn academic work and dissertations into publishable journal articles. Suggestions are provided to help clinicians turn clinical data into research databases that could serve as the foundation for pilot studies. Finally, information is provided to help authors better understand the ethical considerations of publication, including plagiarism, dual submissions, inappropriate authorship, copyright, and conflict of interest.
