The Healing Power Of Stories By Daniel Taylor:

The Energy of Forgiveness Mark S. Umbreit, Jennifer Blevins, Ted Lewis, 2015-07-15 Forgiveness is a profound life changing experience for many people who have been hurt by others But forgiveness is paradoxical in that if one relies on forgiveness language or if others prescribe it as an expectation the depth of that experience can be significantly compromised By the same token many people experience deep forgiveness without ever using the language of forgiveness Most of the stories in this book testify to how forgiveness is experienced primarily as an inner unburdening of negative emotions a process that is aided by safe facilitated dialogue with the offending party New research on the benefits of forgiveness is on the rise these days yet there is often little narrative to show the power of forgiveness The authors present more than twelve case studies that led up to restorative dialogue processes where parties chose to meet together Whether the case involves the murder of a loved one a burglary or the buildup of workplace tensions a common pattern emerges as both parties encounter the true humanity of the other person the negative energy stemming from the offense is transformed into a positive energy that gives both parties a deep inner peace and new freedom The Heroic Female Spirit Phyllis Peterson, 2006 In the tradition of Joseph Campbell these stories employ many of the moral virtues found in every religion The heroes in each tale strive to reshape and improve the world around them showing the qualities of the heroic female spirit at work Myths and legends have traditionally been the domain of men and boys The gallant hero is almost always male In The Heroic Female Spirit A Collection of Tales women and girls are at the center of each story discovering their inner gifts defying restrictive customs and creating peace between seemingly implacable foes These young women demonstrate that heroic qualities are not only the domain of young men and boys but rather these qualities are within each of us regardless of gender This Is My Story Paul Beasley-Murray, 2018-06-28 This Is My Story is an unusually fascinating account of one man's life It is a story of the making of a man initially written with grandchildren in mind Who was my grandfather What kind of person was he At another level it is a story of a growing faith telling how amidst the ups and down of life he has remained a soft hearted pilgrim At yet another level it is a story of the making of a leader who never stopped learning how to lead care preach and engage in effective mission Perhaps even more significantly it is also a story of a ministry in which the author never lost his sense of delight and privilege in his calling to be a pastor Finally as one who has at time been at the center of controversy it is an opportunity to tell my side of the story This is a book for pastors and for any Christian who wants the inside story of the pains and triumphs of a Christian leader **The Gift of Story** Emily Griesinger, Mark A. Eaton, 2006 Despite postmodernism's skepticism about narrative the dialogue with contemporary fiction drama music and film demonstrates that the Christian story can engender and sustain hope Journeying Out Ann Morisy, 2006-05-17 Ann Morisy social responsibility director for the Anglican Diocese of London calls on churches to continue their outreach in a way that encourages opportunities for spiritual transformation as well as secular benefit A thought provoking book for anyone

hope and love that has been told and retold in a thousand different ways always to the same effect This story points to something we all inherently need or subconsciously long for even though we don't fully understand why T L Hartley explores the meaning behind that story God's tale of hope for us all and why it matters in order to help others discover their part in this grand yet little understood epic While revisiting the themes and characters from a variety of movies Hartley draws a distinction between the stories that titillate the senses or manipulate emotions and the ones that challenge the mind and soul and delves into the origin of certain stories their meaning why we never tire of hearing these stories and why they matter so much to so many The One Story offers an inspirational examination of the common theme behind many movies while encouraging others to hope in the mystery of the unseen and believe in the power of the greatest story ever told
