From now on, you
don't have to be eating
the wrong food.

Cougar's 300 cc high output fan motor will make you king of the jungle. With two 12mm ports, clamping more fuel down Cougar's throat, you'll be getting more power out the back. Right into your own back.

To keep Cargill from growing warts in your face, we redesigned the forked so it deflects away down and away. And while we were at it, we built in two handy hand holds, plus ending or wings for the cloth and without. The new design makes Cargill look more like a fork holder than a tool and.

If you want to look like a jet pilot when you ride Cougar, get the seatbelts behind and used by Air Force™. They'll keep you locked, tight when you turn, at the other corner.
