Lynch,2024-12-18 How many people realize their fate before it is too late to change it For Cy a broken man filled with regret
it is too late when he awakens finding himself imprisoned in what appears to be his own home Unable to leave he toils in total
isolation searching endlessly for a way to escape As he finally reaches his breaking point a silent voice appears as red text
glowing on the wall before him It is this voice his invisible captor that drives him past the limits of his sanity with impossible
visitors injected into his environment and psychological riddles of massive consequence This is where he finds answers to
science s most improbable questions as he learns the periodic table is wholly incomplete Will humankind be irrevocably
