

GOING IN STYLE.

As you can plainly see, the new Riva 125 is a lot more than a way to get from here to there.

But if that's what you need to do, it's certainly up to the task. Thanks to a 125cc four-stroke engine, automatic transmission, and a V-belt drive system, the newest Riva can carry you and a friend along at over the double nickel with go to spare.

Then there's the niceties like electric start, a step-through frame that lets you wear whatever you want whenever you ride and a fully enclosed engine that won't get in your way.

Put it all together, and you've got a vehicle that makes getting there almost as much fun as being there.

Complete lighting includes extra bright turn signals, side reflectors, a taillight and 45 watt headlight.

The Riva's front fender and apron not only provide aerodynamic efficiency but shield you from dirt, splatters and other foreign substances encountered in your travels.

A bottom-link front suspension and hydraulic shocks front and rear keep the ride smooth when the pavement isn't.

Waterproof and dustproof drum brakes front and rear provide plenty of stopping power. Rear brake is foot operated just like your car.

Electric start combined with the automatic choke makes starting up quick and dependable.

Handy travel compartments for maps, gloves, odds, ends and other small items.

The step-through frame design lets you dress normally and sit comfortably.

Engine and fully automatic, variable speed V-belt transmission deliver smooth, easy-to-control, virtually maintenance-free power.

ENGINE
