

6. CASCADE WATERFALL / LAMINAR FLOW VALVE

Located on the topside of the spa, this valve adjusts water flow to the cascade waterfall and the Laminar Flow Jets. This feature is available on the Legend Series only. **NOTE:** See "Maintenance Recommendations" for instructions on cleaning your Laminar Flow Jets.

NOTE: When water features are not going to be used for an extended period of time, turn valve slightly to allow some water to flow when pump is on to prevent stagnant water from developing in the water lines.

Cascade Waterfall / Laminar Flow Valve

Laminar Flow Jets

7. AIR CONTROL VALVES

These are located around the top of your spa. You may increase or decrease the force of your jets by opening or closing the air control valves. Typically, one dial controls the air to water ratio and mix to one group of jets. When not in use the air controls should be kept in the closed position, as air bubbles tend to cool the water.

Master Legend

8. TOPSIDE CONTROL PANEL

You may safely control spa functions from inside or outside your spa using the Topside Control Panel. This Panel is used to control the water temperature, pumps, the spa light, automatic filtration cycles and other advanced functions. The digital display will give you a constant temperature readout and will notify you in case of certain malfunctions. Several user programmable functions are also available.
