2016 Passenger Car and 2015 Concept Car Yearbook Automotive Engineering International, 2015-12-15 Carmakers release new models every year with advanced technology to attract consumer interest and to satisfy increasingly stringent government regulations. Some of these technologies are firsts or leading edge and they start trends that more companies will soon follow. Snapshots of the direction of the automotive industry along with OEM and supplier perspectives are presented in these articles that have been collected by the Editors of Automotive Engineering whose aim is to provide the reader with a complete overview of the key advances that took place over the course of one model year. Provides a single source for information on the key engineering trends of one year. Allows the reader to skip to chapters that cover specific car models that interest them or read about all models from beginning to end. Includes plenty of big full color images and the facts about the most recent technology and engineering innovations. Each car manufacturer has its own chapter exploring new models in depth. The yearly trends and innovations that make the automotive industry fascinating to both the engineer and the customer are all captured in the imagery and easy reading of this full color book. **2015 Passenger Car and 2014**

Concept Car Yearbook Automotive Engineering International, 2014-11-21 Every year global automakers introduce new or significantly re-engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations. Some of these technologies are firsts of their kind and start trends that other automakers soon follow with the innovations becoming adopted across the board. The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research, develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners. Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume. This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry. In this book we explore from an OEM and supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year. In addition we also have included a technology focused recap of the concept cars revealed during 2014. Readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world. Each new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of Automotive Engineering in this exclusive compilation of print and online content. The novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from you can only get from Automotive Engineering.
