of the Romans whom Cato or Tully could have acknowledged for their countryman Boethius was born in Rome around 476 to an aristocratic family received a thorough education in Greek and rose rapidly to the ranks of senator master of offices and sole consul He combined public life with scholarly projects aiming to bring Greek learning to the Latin speaking world through his translations of and commentaries on major logical and philosophical texts especially those of Aristotle In 523 having publicly expressed support for a senator who had been accused of treason Boethius was stripped of all honors and exiled to Pavia where he composed the work translated into English as *The Consolation of Philosophy* Boethius himself is one of the work's two main characters At its beginning he sits in prison composing a song of lament at his unjust detention surrounded by the Muses of Poetry The figure of Philosophy then appears to him a woman of supernatural appearance who banishes the Muses from Boethius cell and begins a dialogue with the prisoner Diagnosing his condition as the dire result of forgetting the nature of the universe and of himself Philosophy intends to palliate Boethius distress by returning his attention to the rational order and government of the universe To this end she leads him through disquisitions on the nature of fortune true and false happiness fate and providence and the relationship between free will and divine foreknowledge With sections alternating between prose and verse *The Consolation of Philosophy* serves as one of Western literature's foremost examples of prosimetrical composition It contains in total thirty nine poems or songs as they are called in the present edition's translation by H R James leading scholar Joel Relihan to describe it as the most prosimetric text of antiquity Prosimetrical form is associated with the tradition of Menippean satire in which pretensions to wisdom and authority are ironized Boethius use of this general form as well as the variety of literary genres he incorporates into it contributes to the complexity of the work's interpretation to what extent did he intend Philosophy's arguments and with them the authority of philosophy as a discipline to be taken at face value Relihan has interpreted the work as expressing a rejection of the possibility that philosophy might genuinely provide consolation to suffering human beings In this view the unsatisfactory quality of Philosophy's arguments is a rhetorical strategy in line with the author's unstated Christian commitments to shore up the idea that only faith in the Christian god can provide true consolation to the broken In contrast scholar John Marenbon writes that Boethius does not reject the aspirations of Philosophy to console as if its title had to be pronounced with ironic emphasis that's the consolation you gain from philosophy but rather explores the limits of its power to do so in a lightly satirical style an exploration that presupposes rather than questions the discipline's real value In this connection T F Curley views the form of the *Consolation* as suggestive of the ancient antagonism between poetry and philosophy with Boethius attempting neither to endorse one over the other nor to reject both in favor of the cross but to reconcile them The importance of Christianity to the work as to Boethius life is disputed central sections of the text concern God the Divine and Providence but seemingly only as represented in the Greek philosophical tradition the dialogue proceeds without ever mentioning the Catholic faith of Boethius's upbringing or his apparent adult conviction Nevertheless the work was interpreted in roundly Christian terms in the Middle

Ages and almost eight centuries after its composition Dante would refer to Boethius in the Divine Comedy as the sainted soul which the fallacious world Makes manifest to him who listeneth well Unlike Boethius theological tractates and logical commentaries the Consolation was immensely popular for many centuries often described as a best seller of its time The popularity of the work is also attested in its translation history having been rendered in English by King Alfred Queen Elizabeth I and Chaucer Its popularity has waned with the secularization of the West but The Consolation of Philosophy remains of interest today due to the enduring questions it raises concerning the nature of true happiness the right attitude to suffering the rational order of the universe the relationship between poetry and philosophy and the limits of philosophy itself Gibbon is often quoted as having judged it to be a golden volume not unworthy of the leisure of Plato or Tully consonant with historian H M Barrett s more recent assessment that in Boethius last book there is a certain timeless quality that will protect it from ever going out of date This book is part of the Standard Ebooks project which produces free public domain ebooks
