by Jerri Derlikowski, Education Policy Director

April 2014

There has been a lot of talk about Arkansas's move to adopt Common Core State Standards. Last summer the state's legislators held two days of hearings on the topic. One thing is clear—there is a lot of incorrect information out there about Common Core. This guide will give you the information you need to know as parents to be informed about the issue. No attempt is being made to cover all the details. For parents who want more information, please go to the Arkansas Department of Education Website.¹ Below we respond to some of the questions that we are hearing.

What do we mean by Common Core?

The Common Core State Standards define the knowledge and skills students should have to ensure readiness for college and careers. The Arkansas State Board of Education adopted the Common Core State Standards for English Language Arts/Literacy and Mathematics in July 2010. The standards are in place in Arkansas in every grade this year. They were started in the lower grades in the 2012 school year.²

What do we mean by standard?

A standard is what you have to learn and when. How teachers make that happen is still up to them. What books and materials they use are still up to individual school districts. As in past years, districts select their books with the approval of ADE.
