Proceedings and Minutes, Annual Meeting of the Agricultural Research Institute Agricultural Research Institute (U.S.), Agricultural Research Institute (U.S.). Meeting, 1993 *Fu-Go* Ross Coen, 2014-11-01 Near the end of World War II in an attempt to attack the United States mainland Japan launched its fu go campaign deploying thousands of high altitude hydrogen balloons armed with incendiary and high explosive bombs designed to follow the westerly winds of the upper atmosphere and drift to the west coast of North America After reaching the mainland these fu go the Japanese hoped would terrorize American citizens and ignite devastating forest fires across the western states ultimately causing the United States to divert wartime resources to deal with the domestic crisis While the fu go offensive proved to be a complete tactical failure six Americans lost their lives when a discovered balloon exploded Ross Coen provides a fascinating look into the obscure history of the fu go campaign from the Japanese schoolgirls who manufactured the balloons by hand to the generals in the U S War Department who developed defense procedures The book delves into panic propaganda and media censorship in wartime Fu go is a compelling story of a little known episode in our national history that unfolded virtually unseen *The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces* ,1872 Signal ,2003 **United States Army Aviation Digest** ,1969 **Template for peace** Shaun McDaid, 2016-05-16 At no time in Northern Ireland s history did so many significant political initiatives occur as between 1972 and 1975 the most violent and polarised years of the region s conflict Using archival sources this book analyses the political events and processes that informed the British government s Northern Ireland policy at the time the complex interactions between Northern Ireland political parties and the importance of the British Irish diplomatic relationship to the search for a solution to the Northern Ireland conflict Focusing on the rise and fall of the power sharing Executive and the Sunningdale Agreement the book challenges a number of persistent myths including those concerning the role of the Irish government in the Northern Ireland conflict It contests the notion that the years 1972 to 1975 represent a lost peace process but demonstrates that the policies established during this period provided the template for Northern Ireland s current ongoing peace settlement **Winning at War** Christian P Potholm, 2023-06-14 What are the independent variables that determine success in war Drawing on 40 years of studying and teaching war political scientist Christian P Potholm presents a template of Mars seven variables that have served as predictors of military success over time and across cultures In *Winning at War* Potholm explains these variables_ technology sustained ruthlessness discipline receptivity to innovation protection of military capital from civilians and rulers will and the belief that there will always be another war_ and provides case studies of their implementation from ancient battles to today

Support for Armed Forces Veterans in Wales Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2013-02-12 This Report examines whether the level of support provided to Armed Forces veterans in Wales both immediately before they leave the service and once they return to civilian life is adequate The key recommendation is that

the Welsh Government take forward proposals to establish a network of one stop shops for veterans across Wales A great deal of support is available for veterans in Wales but often a lack of awareness means that support is not taken up A one stop shop for veterans would be a convenient way for veterans to access information and receive advice on a range of important issues such as housing finances and employment To avoid duplication however the Welsh Government needs to take into account the support launched or planned by local authorities as part of their Community Covenants There should also be better co ordination of the work done by the many charities supporting veterans In the light of recent court cases which have illustrated the need for vigilance to prevent fraudsters taking advantage of the public s willingness to give to veterans charities there should be much more stringent inspection of charities finances There is also concern about charities providing treatments for complex psychological issues that do not meet NICE guidelines The regulation of charities may be insufficiently robust in this area The Charity Commission should insist that veterans charities which offer medical psychological or counselling services provide documentation from the relevant professional bodies to confirm that they have the appropriate endorsement for the services they offer
