Canon Constitution and Canon Change in Children's Literature Bettina Kümmerling-Meibauer, Anja Müller, 2016-12-01 This volume focuses on the de canonization processes in children's literature considering the construction and cultural historical changes of canons in different children's literatures Chapters by international experts in the field explore a wide range of different children's literatures from Great Britain Germany Scandinavia the Low Countries Eastern and Central Europe as well as from Non European countries such as Australia Israel and the United States Situating the inquiry within larger literary and cultural studies conversations about canonicity the contributors assess representative authors and works that have encountered changing fates in the course of canon history Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children's literature The volume therefore relates historical changes in the canon of children's literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume's comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the structural similarities between patterns and
