Are Women Human And Other International Dialogues:

Are Women Human? Catharine A. MacKinnon, 2007-11-30 More than half a century after the Universal Declaration of Human Rights defined what a human being is and is entitled to Catharine MacKinnon asks Are women human yet She exposes the consequences and significance of the systematic maltreatment of women and its systemic condonation as she points toward fresh ways of targeting its toxic orthodoxies A critique of the transnational status quo that also envisions the transforming possibilities of human rights this bracing book makes us look as never before at an ongoing war too long undeclared

Violence against Women under International Human Rights Law Alice Edwards, 2010-12-23 Since the mid 1990s increasing international attention has been paid to the issue of violence against women However there is still no explicit international human rights treaty prohibition on violence against women and the issue remains poorly defined and understood under international human rights law Drawing on feminist theories of international law and human rights this critical examination of the United Nations legal approaches to violence against women analyses the merits of strategies which incorporate women's concerns of violence within existing human rights norms such as equality norms the right to life and the prohibition against torture Although feminist strategies of inclusion have been necessary as well as symbolically powerful for women the book argues that they also carry their own problems and limitations prevent a more radical transformation of the human rights system and ultimately reinforce the unequal position of women under international law

Women's Property Rights Under CEDAW José E. Alvarez, Judith Bauder, 2024 For over 40 years the leading international treaty body on women's rights the Committee on the Elimination of All Forms of Discrimination Against Women the CEDAW Committee has been generating jurisprudence interpreting CEDAW's obligations that states protect the equal rights of women This book concludes that CEDAW's re-engendering of property although a flawed and evolving work in progress has the potential to be transformative for the half of the planet who is more likely to be treated as property than to have any

Gendered Harm and Structural Violence in the British Asylum System Victoria Canning, 2017-03-27 Winner of the 2018 British Society of Criminology Book Prize Britain is often heralded as a country in which the rights and welfare of survivors of conflict and persecution are well embedded and where the standard of living conditions for those seeking asylum is relatively high Drawing on a decade of activism and research in the North West of England this book contends that on the contrary conditions are often structurally violent For survivors of gendered violence harm inflicted throughout the process of seeking asylum can be intersectional and compound the impacts of previous experiences of violent continuums The everyday threat of detention and deportation poor housing and inadequate welfare access and systemic cuts to domestic and sexual violence support all contribute to a temporal limbo which limits women's personal autonomy and access to basic human rights By reflecting on evidence from interviews focus groups activist participation and oral history Gendered Harm and Structural Violence provides a unique insight into the everyday impacts of policy and practice that

arguably result in the infliction of further gendered harms on survivors of violence and persecution Of interest to students and scholars of criminology zemiology sociology human rights migration policy state violence and gender this book develops on and adds to the expanding literatures around immigration crimmigration and asylum *Human Security Studies: Theories, Methods And Themes* Sorpong Peou, 2014-03-31 Human Security Studies Theories Methods and Themes examines the concept of human security from different theoretical and methodological perspectives and shows how they help shed light on the different themes of global intervention Liberal perspectives represented by global legalism and developmentalism share the optimism that human security can be ensured and enhanced through strengthening global governance Realists remain skeptical about this liberal vision While also critical of the liberal promise critical theorists and feminists offer radical perspectives on human security All these perspectives help explain the challenges of military intervention for human protection micro disarmament international criminal justice smart sanctions human rights and democracy promotion and human development **The Oxford Handbook of Reproductive Ethics** Leslie Francis, 2017 Intimate and medicalized natural and technological reproduction poses some of the most challenging ethical dilemmas of our time This volume brings together scholars from multiple perspectives to address both traditional and novel questions about the rights and responsibilities of human reproducers their caregivers and the societies in which they live **Marxism, Liberalism, and Feminism** Eric Engle, 2010 International Law and World Order B. S. Chimni, 2017-05-25 This book offers a critique of the principal contemporary approaches to international law alongside its own novel perspectives

Contemporary Issues in Refugee Law Satvinder Singh Juss, Colin Harvey, 2013-01-01 Refugee law is going through momentous times as dictatorships tumble revolutions simmer and the Arab Awakening gives way to the spread of terror from Syria to the Sahel in Africa This compilation of topical chapters by some of the leading scholars in the field covers major themes of rights security the UNHCR international humanitarianism and state interests and sets out to map new contours The concerns over our security are replacing humanitarian concerns over the plight of others Securitization exclusion and the internal relocation of genuine refugees are now the favoured policies Yet while central idioms of protection persecution and non refoulement have changed there are also new demands on refugee law The contributors to this book ask whether there are new spheres of protection emerging for which refugee law must find a clear space such as the protection of child refugees trafficked persons gender related asylum and conscientious objectors to military service This timely and valuable book shows that in these uncertain times refugee law still has an exciting and challenging future ahead **Contemporary Issues in Refugee Law** will appeal to academics researchers students and practitioners **The ^AOxford Handbook of Feminism and Law in the United States** Deborah L. Brake, Martha Chamallas, Verna L. Williams, 2023-07-11 The Oxford Handbook of Feminism and Law in the United States provides a wide ranging exploration of U S legal feminism analyzing both prominent brands of feminist legal theory and key feminist social movements The Handbook s chapters examine the

influence that legal feminism has exerted on law from the creation of feminist claims such as sexual harassment and gender equity in sports to new understandings of consent motherhood and reproductive justice Contributions from leading feminist thinkers dissect the backlash to feminism and compare feminism to adjacent discourses including queer theory and masculinities theory The Handbook is also forward looking insofar as it imagines how legal feminism will affect emerging areas like digital privacy immigration law and environmental law Thanks to its expansive scope and highly regarded team of editors and contributors The Oxford Handbook of Feminism and Law in the United States will be an essential source for scholars and students working in a range of interconnected fields

The Oxford Handbook of Gender and Conflict Fionnuala Ní Aoláin, Naomi R. Cahn, Dina Francesca Haynes, Nahla Valji, 2018 The authors focus on the multidimensionality of gender in conflict yet they also prioritise the experience of women given both the changing nature of war and the historical de emphasis on women s experiences

The Oxford Handbook of Gender and Politics Georgina Waylen, 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies

Are Women Human ? And Other International Dialogues Catharine A. Mackinnon, 2006

African Conceptions of Human Dignity Brett G. Scharffs, M. Christian Green, Simeon O. Ilesanmi, Contributors join together in this tenth ACLARS volume to propose a framing of human rights in terms of African conceptions of human dignity Following on the signing of the Punta del Este and Botswana Declarations of Human Dignity for Everyone Everywhere in 2018 and 2023 contributors discuss human dignity as an African and indigenous concept grounded in relationship community and an overarching ethic of Ubuntu Chapters further explore human dignity s many meanings and relation to other rights in the African context as well as human dignity s connection to basic human needs state obligations religion and theology gender and age and the environment

International Security, Conflict and Gender Hakan Seckinelgin, 2012-06-25 This book challenges the conventional security based international policy frameworks that have developed for dealing with HIV AIDS during and after conflicts and examines first hand evidence and experiences of conflict and HIV AIDS Since the turn of the century international policy agenda on security have focused on HIV AIDS only as a concern for national and international security ignoring people s particular experiences vulnerabilities and needs in conflict and post conflict contexts Developing a gender based framework for HIV AIDS conflict analysis this book draws on research conducted in Burundi to understand the implications of post conflict demobilization and reintegration policies on women and men and their vulnerability to HIV AIDS By centring the argument on personal reflections this work provides a critical alternative method to engage with conflict and HIV AIDS and a much richer understanding of the relationship between the two International Security Conflict and Gender will be of interest to students and scholars of healthcare politics security and governance

Human Rights Law and Personal Identity Jill Marshall, 2014-06-20 This book explores the role human rights law plays in

the formation and protection of our personal identities Drawing from a range of disciplines Jill Marshall examines how human rights law includes and excludes specific types of identity which feed into moral norms of human freedom and human dignity and their translation into legal rights The book takes on a three part structure Part I traces the definition of identity and follows the evolution of and protects a right to personal identity and personality within human rights law It specifically examines the development of a right to personal identity as property the inter subjective nature of identity and the intercession of power and inequality Part II evaluates past and contemporary attempts to describe the core of personal identity including theories concerning the soul the rational mind and the growing influence of neuroscience and genetics in explaining what it means to be human It also explores the inter relation and conflict between universal principles and culturally specific rights Part III focuses on issues and case law that can be interpreted as allowing self determination Marshall argues that while in an age of individual identity people are increasingly obliged to live in conformed ways pushing out identities that do not fit with what is acceptable Drawing on feminist theory the book concludes by arguing how human rights law would be better interpreted as a force to enable respect for human dignity and freedom interpreted as empowerment and self determination whilst acknowledging our inter subjective identities In drawing on socio legal philosophical biological and feminist outlooks this book is truly interdisciplinary and will be of great interest and use to scholars and students of human rights law legal and social theory gender and cultural studies **Spectacular Rhetorics**

Wendy Hesford,2011-08-05 Scrutinizes spectacular rhetoric the use of visual images and imagery to construct certain bodies populations and nations as victims and incorporate them into human rights discourses geared toward Westerners **Sex**

Discrimination in Uncertain Times Margaret Thornton,2010-09-01 This collection of essays arose from a conference held to mark the silver anniversary of the Australian Sex Discrimination Act 1984 The collection has two aims first to honour the contributions of both the spirited individuals who valiantly fought for the enactment of the legislation against the odds and those who championed the new law once it was passed secondly to present a stock take of the Act within the changed socio political environment of the 21st century The contributors present clear eyed appraisals of the legislation in addition to considering new forms of legal regulation such as Equality Act and the significance of a Human Rights Act The introduction of a proactive model which would impose positive duties on organisations is explored as an alternative to the existing individual complaint based model of legislation The contributors also pay attention to the international human rights framework particularly the Convention on the Elimination of all Forms of Discrimination against Women and the UN Declaration on the Rights of Indigenous People The essays are illuminated by recourse to a rich vein of historical and contemporary literature Regard is also paid to the comparative experience of other jurisdictions particularly the UK and Canada **The Politics of the Human** Anne Phillips,2015-03-19 An elegant and forceful argument that represents the claim to equality as central to the meaning of being human

Humanity's Law Ruti Teitel,2011-10-07 A powerful account

of one of the central transformations of the post Cold War era the profound normative shift in the international legal order from prioritizing state security to protecting human security
