AREMA Communications & Signals Manual ,2022 *Shared Use of Railroad Infrastructure with Noncompliant Public Transit Rail Vehicles* ,2009 Over the past decade highway and urban congestion have garnered the attention of commuters as well as government entities Facility joint use by expanding public transit using existing rail corridors is one approach to solving the constellation of problems occurring as offshoots of congestion The potential and feasibility of shared use of rail corridors between light rail vehicles associated with public transit and freight railroads to function compatibly are still being investigated even as current near shared track operations are evolving *Traffic Signal Operations Near Highway-rail Grade Crossings* Hans W. Korve,1999 Presents a review of the current practices associated with the operation of traffic signals at intersections located near highway rail grade crossings *AREMA Communications & Signals Manual* ,2024
