Smith,2015-09-30 Aviation and maritime historian Peter C Smith reveals how both Allied and Axis powers used World War I era aircraft in Combat Biplanes of World War II The era of the combat biplane is usually thought to have been between 1914 and 1938 By the outbreak of World War II most of the advanced air forces of the world had moved on to monoplane aircraft for their front line battle forces both in bomber and fighter capacities Yet despite this many biplanes did still survive both in front line service and in numerous subsidiary roles and not just as training machines but as fully operational warplanes Thus in 1939 the majority of major European powers still retained some albeit few biplane aircraft Great Britain had the bulk of such obsolescent machines including the Gladiator Swordfish Walrus Vildebeeste and Audax while the inferior Albacore meant to replace the Swordfish had yet to enter service Germany still managed to conduct missions in which biplanes like the He 50 He 51 and Hs 120 excelled Both France and Italy had active biplanes Mussolini s Regia Aeronautica attaching great importance to the type as a fighter aircraft as late as 1941 while the Soviet Union also retained some machines like the Po 2 in front line service right through the war and beyond By the time Japan and the United States entered the war two years later they had mainly rid themselves of biplanes but even here a few specialized types lingered on Combat Biplanes of World War II describes many of these gallant old warriors representing the author s own personal selection from a surprisingly large range of aircraft that despite all predictions fought hard and well *F & S Index United States Annual* ,2005 Midway: Dauntless Victory Peter C. Smith,2008-03-25 This is an in depth study of the battle of Midway that reviews the many previous accounts and compares their accuracy and veracity with fresh documentation that has been released recently including new material on the post war analysis made by a US select committee There are new viewpoints on the muddle among the US Admirals the total failure of the USAAF despite elaborate claims fresh thinking on the part played by the US Navy Dauntless dive bombers in the action the mystery of the carrier Saratoga s presence Hollywood s totally wrong take on the battle in all the films since made about it Also included are new eyewitness accounts the author has obtained and information from Japanese sources that has never been previously published The lengthy

Appendices will include statistical details of the ships the planes and the men **Chicago Tribune Index** ,1995 **The New York Times Index** ,2006 **The Wall Street Journal** ,1994 *Hoover's 500* Hoover's Staff,Reference Press,Hoover's,Hoover's Incorporated,1996 Just what are the 500 largest business enterprises in America Hoover s 500 is the place to find the answer Ranked by revenues the companies in this book represent the American dream of making it big Over 350 000 copies of Hoover s Handbooks have been sold and every month more than two million people refer to Hoover s for their business needs **USA Today Index** ,1989 *Global Corporations and National Governments* Edward Graham,1996-06-01 There is inherent tension between the increasingly global focus of foreign investors and the continuing national focus of governments Countries particularly developing ones compete to attract investment from global corporations and they attach performance requirements to tilt the impact of those investments in their favor This is because the host nations expect investment to raise growth levels efficiency and living standards At the same time the home countries of such corporations worry that their firms are not accorded fair and reciprocal treatment abroad These issues have become a source of conflict among nations one that could escalate considerably if an agreement is not soon reached Graham s study analyzes the nature and depth of the international investment problem and its potential impact on the world economy and on economic relations among nations He urges that current rules on foreign direct investment be enlarged and restructured via new international rules and institutional arrangements and offers two alternatives for doing so
