Description

This is the story of a man who said that he would stop the motor of the world and did. Was he a destroyer or the greatest of liberators? Why did he have to fight his battle, not against his enemies, but against those who needed him most, and his hardest battle against the woman he loved? What is the world's motor and the motive power of every man? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the characters in this story. Tremendous in its scope, this novel presents an astounding panorama of human life – from the productive genius who becomes a worthless playboy – to the great steel industrialist who does not know that he is working for his own destruction – to the philosopher who becomes a pirate – to the composer who gives up his career on the night of his triumph – to the woman who runs a transcontinental railroad – to the lowest track worker in her Terminal tunnels. You must be prepared, when you read this novel, to check every premise at the root of your convictions. This is a mystery story, not about the murder and rebirth of man's spirit. It is a philosophical revolution, told in the form of an action thriller of violent events, a ruthlessly brilliant plot structure and an irresistible suspense. Do you say this is impossible? Well, that is the first of your premises to check.

The Revolution That Wasn't Jen Schradie, 2019-05-13 This surprising study of online political mobilization shows that money and organizational sophistication influence politics online as much as off and casts doubt on the democratizing power of digital activism The internet has been hailed as a leveling force that is reshaping activism From the Arab Spring and Occupy Wall Street to Black Lives Matter and MeToo digital activism seemed cheap fast and open to all Now this celebratory narrative finds itself competing with an increasingly sinister story as platforms like Facebook and Twitter once the darlings of digital democracy are on the defensive for their role in promoting fake news While hashtag activism captures headlines conservative digital activism is proving more effective on the ground In this sharp eyed and counterintuitive study Jen Schradie shows how the web has become another weapon in the arsenal of the powerful She zeroes in on workers rights advocacy in North Carolina and finds a case study with broad implications North Carolina's hard right turn in the early 2010s should have alerted political analysts to the web's antidemocratic potential amid booming online organizing one of the country's most closely contested states elected the most conservative government in North Carolina's history The Revolution That Wasn't identifies the reasons behind this previously undiagnosed digital activism gap Large hierarchical political organizations with professional staff can amplify their digital impact while horizontally organized volunteer groups tend to be less effective at translating online goodwill into meaningful action Not only does technology fail to level the playing field it tilts it further so that only the most sophisticated and well funded players can compete

Evil Twins and the Ultimate Insight Bruce Stone,2023

With the 2020 election political polarization in the U S entered a ludicrous end stage Partisanship once a pseudo rational system of biases has devolved to a conflict between incompatible realities In search of some pathway toward consensus Evil Twins and the Ultimate Insight Ayn Rand Vladimir Nabokov and the Polarized Politics of Reading looks to the works of two iconic Russian American writers whose literary rivalry mirrors the rift between political parties in the U S The matchup has all the markings of an evil twin narrative pitting Rand the muse of libertarian conservatism against Nabokov the trickster genius of the Western canon Their mid century novels afford a rare opportunity to arbitrate by proxy American political grievances and resolve in print its electoral dysfunction Evil Twins and the Ultimate Insight mounts this critical intervention into the Blue Red blood feud and contemplates in the cognitive challenges of Nabokov s fiction a remedy for its polarized politics To guard against grandstanding axe grinding deck stacking inaccuracy or obfuscation Stone s book proceeds by indirection exploring four scholarly books that all speak to the peculiar relationship between Rand and Nabokov Gene Bell Villada s On Nabokov Ayn Rand and the Libertarian Mind 2013 Adam Weiner s How Bad Writing Destroyed the World Ayn Rand and the Literary Origins of the Financial Crisis 2016 Michael Rodgers s Nabokov and Nietzsche Problems and Perspectives 2018 and Peter Roberts and Herner Saeverot s Education and the Limits of Reason Reading Dostoevsky Tolstoy and Nabokov 2018 Each of these books is seriously flawed but their numerous interlocking problems conspire to reveal empirically via negativa how literature might tip the scales in America s partisan deadlock Ultimately Stone argues that when our books get tangled up in our politics their promise to help us see to the bottom of things and scooch closer to the asymptote of truth and reality might be something more than a mirage

Luigi John H. Richardson,2025-11-04 The first book to explain why the world was primed for the Luigi Mangione moment showing the history that led him to be embraced as an avenger with an affection not seen since Jesse James or Robin Hood The explosion of glee and sympathy for Luigi surprised everyone but it was everywhere Hours after the shooting of the United Healthcare executive his company put out a message out on Facebook saying their hearts go out to Brian s family and all who were close to him People replied with laughing emojis and comments like this one No one here is the judge of who deserves to live or die That s the job of the AI algorithm the insurance company designed to maximize profits on your health On TikTok another commentator said Oh my god y all really raised the school shooter generation and now you re asking us for sympathy she asks Welcome to a regular Tuesday at school in America When he was arrested TikTok exploded with more love for Luigi They could ve been more gentle with him he has back problems said one commentator Others attempted to come to his rescue He is innocent he was with me the whole time eBay said that while it had a policy prohibiting items that glorify violence they were allowing the sale of items with the words deny defend depose In Seattle someone reprogrammed a couple of electric highway signs so they flashed One CEO down many more to go So where is all this coming from Richardson has tracked the building blocks of this widespread alienation for three decades finding it across not only the environmental movement but among those who reject capitalism itself including the rules that govern everything from insurance to healthcare He has followed the men and women who have gone to extremes to express that alienation and studied the inspirations they found in other outlaws most especially Ted Kaczynski Luigi had posted a review of Kaczynski s manifesto on Goodreads The result is a book that will put Luigi in context and even illuminate how his appeal is likely to play out in the future

Immeasurable Outcomes Gayle Greene,2023-01-17 What is the purpose of education The answer might be found in a Shakespeare class at a small liberal arts college In this engaging account of teaching a Shakespeare class at a small liberal arts college Gayle Greene illustrates what is so vital and urgent about the humanities Follow along with Greene as she introduces us to her students and showcases their strengths needs and vulnerabilities so we can experience the magic of her classroom In Immeasurable Outcomes Greene s class builds a complex human ecosystem that pushes students to think more deeply and discover their own interests and potential all while

recognizing the inherent dignity in other people's views and values. Grounding her analyses in half a century of teaching, Greene pushes back against the demand for measurable student learning outcomes and the standardization imposed on K-12 schools in the name of reform. Instead, she draws her conclusions about education directly from the students themselves. Alumni testimonials describe the transformative power of a liberal arts education, recounting how their experience of community and engagement has provided them the tools to navigate the uncertainties of a rapidly changing world while also inspiring the social awareness our democracy depends on. Immeasurable Outcomes rejects claims that the liberal arts are impractical, exposing the political agendas of technocrats and ideologues who would transform higher education into vocational training and programs focused only on profitability. Greene reminds us that the liberal arts have been the basis for the most successful educational system in the world and provides a powerful demonstration that education at a human scale that is relationship-rich and humanities-based should be the model for education in the future.

First of the Year: 2010 Benj DeMott, 2017-07-05. This is the third volume of the First of the Year annual series. Contributors such as Armond White, Philip Levine, Charles O'Brien, Uri Avnery, Donna Gaines, Tom Smucker, Scott Spencer, and Amiri Baraka are back, and fractious as ever. And First's family of writers keeps growing. This volume includes vital new voices such as A.B. Spellman, Bernard Avishai, Rudolph Wurlitzer, and Diane di Prima. First never shies away from hot-button issues. Fredric Smoler, for example, offers a definitive consideration of America's recent history with torture. But First's approach to current political firestorms is often marked by a cool sense of the past. History is always in the mix when First writers examine the roots of Glenn Beck and Sarah Palin and contemporary right-wing pundits who falsely claim the mantle of Whittaker Chambers. First's refusal to toe correct lines is apparent in Benj DeMott's reconsideration of Chambers' work. The new volume is also marked by its cultivation of radical imaginations. The ideas of the Situationists and Cornelius Castoriadis are revived. A young historian, David Waldstreicher, recovers the radical, useable past in the 60s work of Staughton Lynd. Amiri Baraka evokes the felt quality of Jesse Jackson's 1988 campaign, and another poet remembers in verse long-forgotten extreme political acts of American Renaissance poets. A recent review of First of the Year 2009 used a phrase of Kenneth Burke's perspective by incongruity to make sense of the method that shaped it: First is committed to thought provoking incongruities. Faith that wonder is our best teacher informs this volume. First's music writing provides a high-low soundtrack of surprise. Beyond the section on Michael Jackson, there are serious responses to John Coltrane and Bach, World Saxophone Quartet, and Mariah Carey, Sonny Rollins, and Willie Mitchell. First's message is in
