Willis,2005-08-12 First Published in 1986 Slavery in Islamic Africa has been a fascinating subject to which many scholars have referred but of which no detailed monograph has emerged The better part of the essays in these volumes has its ancestry in a conference held at Princeton University during the Summer of 1977 under the title Islamic Africa Slavery and Related Institutions At that international gathering four principal themes dominated discussion the servile estate its genesis and composition the master slave connection and the post servile condition patterns and perspectives of slave trading the legacy of Islamic slavery in Africa to contemporary societies **The Oxford Encyclopedia of Economic History** Joel

Mokyr,2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living

standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history [A History of African Societies to 1870](#) Elizabeth Isichei,1997-04-13 This comprehensive and detailed exploration of the African past from prehistory to approximately 1870 is intended to provide a fully up to date complement to the Cambridge History of Africa Reflecting several emphases in recent scholarship it focusses on the changing modes of production on gender relations and on ecology laying particular stress on viewing history from below A distinctive theme is to be found in its analyses of cognitive history The work falls into three sections The first comprises a historiographic analysis and covers the period from the dawn of prehistory to the end of the Early Iron Age The second and third sections are for the most part organised on regional lines the second section ends in the sixteenth century the third carries the story on to 1870 A second volume now in preparation will cover the period from 1870 to 1995 This book attempts a more rounded view of African history than most of the other textbooks on the subject addressed to a largely undergraduate level student Earlier histories have tended to ignore some of the current foci in the scholarly literature on Africa generally not reflected in the textbooks these include discussions of topical issues like ecology and gender Isichei's book is also more radical **The Rise of African Slavery in the Americas** David Eltis,2000 Why were the countries with the most developed institutions of individual freedom also the leaders in establishing the most exploitative system of slavery that the world has ever seen In seeking to provide new answers to this question The Rise of African Slavery in the Americas examines the development of the English Atlantic slave system between 1650 and 1800 The book outlines a major African role in the evolution of the Atlantic societies before the nineteenth century and argues that the transatlantic slave trade was a result of African strength rather than African weakness It also addresses changing patterns of group identity to account for the racial basis of slavery in the early modern Atlantic World Exploring the paradox of the concurrent development of slavery and freedom in the European domains David Eltis provides a fresh interpretation of this difficult historical problem *Slaves and Slavery in Muslim Africa: The servile estate* John Ralph Willis,1985 <http://www.ebookstore.tandf.co.uk/isbn/0203988175> Click here for more information <http://www.ebookstore.tandf.co.uk> [African Founders](#) David Hackett Fischer,2022-05-31 A synthesis of African and African

American history that shows how slavery differed in different regions of the country and how the Africans and their descendants influenced the culture commerce and laws of the early United States The Atlantic Slave Trade: Nineteenth century Jeremy Black,2006 Covering the Atlantic slave trade from its origins to 1600 this work looks at the reasons for its development Particular attention is devoted to the demographic situation in Latin America and to European attitudes to slavery **From Slave Trade to Empire** Olivier Pétré-Grenouilleau,2004-08-26 This book provides a new perspective on the colonisation of sub Saharan Africa at the end of the nineteenth century and focuses on the role of Germany France Italy and Portugal *Transformations in History* Toyin Falola,2024-11-04 The book uses the main body of Lovejoy s work to speak to core African and economic history issues It thoroughly examines Lovejoy s contributions to the study of Africa particularly in exploring issues around production and exchanges at local regional and international levels The book offers readers a fresh perspective on the discourse of slavery and colonialism while simultaneously introducing them to the quality of work already accomplished by a stellar scholar As the book argues Lovejoy presents verifiable historical data that nudges us to reconsider our perception of Africa s growth trajectory especially before its encounter with the Americas A chapter examines the various ways by which the people experienced slavery before it became proliferated during the time Europeans entered into the business Another chapter addresses questions about the progressive efforts of slave traders to access the interior to drive more victims who would be shipped to the Atlantic for the business of servitude to advance the European economy Alongside this exploration a provides the background as to the contributions of Africans to ensure the continuity of this business Lovejoy notes for instance that Muslims were found in every region in the Americas during slavery which indicates that they were being taken there through transatlantic slavery While Muslims were found in these areas it was not true that they were there in large numbers This is underscored by their resistance to all forms of forced extraction of the people from their homeland In essence they challenged the system in ways that redefined their participation in the exercise The book analyzes how Muslims ensured that economic and political power were withdrawn from the hands of the victims and how they systematically created institutions that promoted that very inequity Lovejoy s extensive knowledge allows us to develop theories and establish applicable methodologies for understanding African reality since the precolonial era He presents original perspectives about addressing issues of African American engagements and the roles of critical voices in the diaspora Consequently the book is an invaluable educational resource particularly for people who want to deepen their understanding of African social and economic history
