Language, Cognition, and Emotion in Keats's Poetry Katrina Brannon, 2022-10-31 Language Cognition and Emotion in Keats's Poetry applies an innovative cognitive linguistic approach to the poetry of John Keats the first of its kind to employ a cognitive based framework to explore the expression and articulation of emotion in his work Brannon adopts an embodied perspective to emotion rooted in cognitive linguistics cognitive grammar and cognitive poetics but also works from figurative language and stylistics in examining a selection of Keats's poems This approach allows for a close interrogation of the texts themselves but also the languages that compose them comprising lexical and grammatical elements which when taken together bring out the emotional saliency of Keatsian poetry While revealing fresh insights into the work of John Keats the book also sheds further light on the importance of cognitive approaches to poetic and grammatical analyses and how both language and the body can serve as forms of communication through which metaphors can be expressed and contextualized This volume will appeal to students and scholars interested in cognitive linguistics figurative language emotion studies cognitive science and Anglophone poetry

The Secrets for Motivating, Educating, and Lifting the Spirit of African American Males Ernest H. Johnson, 2011-11-21 Unlike the media would have you believe most black males find great value in education They want to believe that they have a special gift and that they can make a difference in the world The problem is that they have ill feelings about how society has deprived them of the most qualified teachers and the best ways to be engaged in their own education As a consequence of repeatedly being marginalized criticized and put down by society and teachers they do not feel motivated to attend school or to produce outstanding academic work The Secrets for Motivating Educating and Lifting the Spirit of African American Males contains essays that center on how to help educators and parents to equip young black males with the drive necessary to craft fulfilling lives for themselves so they don't slip through the cracks in the educational system Historically we are still dealing with what happens to the image of Black people in the minds of white people A book like this helps to make certain that the information teachers provide to all students regardless of their race will help them understand that the history of this country has made generation after

generation of black students see themselves as academically and socially inferior to white people Most importantly its the teachersnot just black teachers but all teachers who have to understand the power they have to change the mindset of society Changing how society thinks about Black people particularly Black males is a task teachers can truly accomplish because they have the power to create lesson plans that challenge how students think about each other For such lessons are important for changing the attitudes and beliefs of the entire community in which we live REVEREND C T VIVIAN A Pioneer of the Civil Rights Movement Author Educator and a Close Friend of Reverend Dr Martin Luther King Jr This book provides a fresh perspective for understanding the problems associated with the education of Black males As a minister I have not encountered a project that gathers the collective wisdom of a group of over 20 Black male educators who are dedicated to helping the world save young Black males When all their ideas come together they are bound to create a storm of new thinking about how all of us can work together As a spiritual leader my role is to help young Black males understand that the same God that was in Dr King is the same God that is in them This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives This book will help us including those in the ministry to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century REVEREND ROBERT KILGORE Assistant Pastor at Hillside International Truth Center Atlanta GA

Motivating Writers in Class Bruce Saddler,2023-04-14 Writing is a very complex process that is difficult to teach learn and research Although many students struggle with writing composing often presents major challenges for students with disabilities One area of written expression that presents particular difficulties for students with disabilities is motivation Motivation is a key aspect of written expression that helps all writers complete difficult composing tasks However students with disabilities may have more negative motivational patterns and may also be less positive about writing and their ability as writers than their normally achieving peers Logically this means that effective writing intervention efforts must not only address how to write but must also articulate methods to increase students motivation to write This book written for teachers scholars and researchers focuses on the essential issue of helping students learn how to want to write Each contributing author presents an important theoretical or pedagogical element of writing motivation for example The historical beginnings of research in this area Conceptual and methodological advances in the field of motivation to write Developmental trajectories of writing motivation in typical and atypical populations The effect of playful writing tasks on the development of writing ability as well as on motivation to write The impact of writing prompts on motivation How reading motivation relates and supports writing motivation This book was originally published as a special issue of Reading and Writing Quarterly

Psychology and the Poetics of Growth Howard R. Pollio, Jack M. Barlow, Harold J. Fine, Marilyn R. Pollio, 2023-10-01 In this volume originally published in 1977 the authors describe the relevance of figurative language for the psychology of language and present a methodological approach best described as naturalistic in orientation The first section presents the idea of figurative language in terms of linguistic aesthetic and philosophical background Also included is a description of empirical techniques used to assess figurative language and findings from an analysis of widely differing spoken and written contexts The second section of this volume deals with the occurrence and significance of figurative language within the specific context of psychotherapy The use of such language is shown to be crucial in patient insight The third section deals with children their understanding and use of figurative expressions specifically within the school Here is a volume that was an outstanding addition to the literature at the time and still a valuable resource today *The Philosophy of Poetry* John Gibson, 2015 In recent years philosophers have produced important books on nearly all the major arts the novel and painting music and theatre dance and architecture conceptual art and even gardening Poetry is the sole exception This is an astonishing omission one this collection of original essays will correct If contemporary philosophy still regards metaphors such as Juliet is the sun as a serious problem one has an acute sense of how prepared it is to make philosophical and aesthetic sense of poems such as W B Yeats's *The Second Coming* Sylvia Plath's *Daddy* or Paul Celan's *Todesfuge* The *Philosophy of Poetry* brings together philosophers of art language and mind to expose and address the array of problems poetry raises for philosophy In doing so it lays the foundation for a proper philosophy of poetry setting out the various puzzles and paradoxes that future work in the field will have to address Given its breadth of approach the volume is relevant not only to aesthetics but to all areas of philosophy concerned with meaning truth and the communicative and expressive powers of language more generally Poetry is the last unexplored frontier in contemporary analytic aesthetics and this volume offers a powerful demonstration of how central poetry should be to philosophy **Routledge Encyclopedia of Language**

Appreciating Literature ,1987 *Pindar and the Poetics of Permanence* Henry Lawlor Spelman, 2018 Recent scholarship on early Greek lyric has been primarily concerned with the immediate contexts of its first performance This volume instead turns its attention to the rhetoric and realities of poetic permanence Taking Pindar and archaic Greek literary culture as its focus it offers a new reading of Pindar s victory odes which explores not only how they were received by those who first experienced them but also what they can mean to later audiences Part One of the discussion investigates Pindar s relationship to both of these audiences demonstrating how his epinicia address the listeners present at their premiere performance and also a broader secondary audience across space and time It argues that a full appreciation of these texts involves taking both perspectives into account Part Two describes how Pindar engages with a wide variety of other poetry particularly earlier lyric in order to situate his work both within an immanent poetic history and a contemporary poetic culture It shows how Pindar s vision of the world shaped the meaning of his work and illuminates the context within which he anticipated its permanence The book offers new insights into the texts themselves and invites us to rethink early Greek poetic culture through a combination of historical and literary perspectives
