Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a

community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy

Flint Fights Back Benjamin J. Pauli, 2019-05-14 An account of the Flint water crisis shows that Flint's struggle for safe and affordable water is part of a broader struggle for democracy When Flint Michigan changed its source of municipal water from Lake Huron to the Flint River Flint residents were repeatedly assured that the water was of the highest quality At the switchover ceremony the mayor and other officials performed a celebratory toast declaring Here's to Flint and downing glasses of freshly treated water But as we now know the water coming out of residents' taps harbored a variety of contaminants including high levels of lead In *Flint Fights Back* Benjamin Pauli examines the water crisis and the political activism that it inspired arguing that Flint's struggle for safe and affordable water was part of a broader struggle for democracy Pauli connects Flint's water activism with the ongoing movement protesting the state of Michigan's policy of replacing elected officials in financially troubled cities like Flint and Detroit with appointed emergency managers Pauli distinguishes the political narrative of the water crisis from the historical and technical narratives showing that Flint activists' emphasis on democracy helped them to overcome some of the limitations of standard environmental justice frameworks He discusses the pro democracy anti emergency manager movement and traces the rise of the water warriors describes the uncompromising activist culture that developed out of the experience of being dismissed and disparaged by officials and examines the interplay of activism and scientific expertise Finally he explores efforts by activists to expand the struggle for water justice and to organize newly mobilized residents into a movement for a radically democratic Flint

Livelihood resilience and the agrifood system in Myanmar: Implications for agriculture and a rural development strategy in a time of crisis Myanmar Agriculture Policy Support Activity (MAPSA),2023-08-24 Myanmar s agrifood system has proven surprisingly resilient in the face of multiple crises COVID 19 the military coup economic mismanagement global price instability and widespread conflict with respect to production and exports Household welfare has not been resilient however High rates of inflation especially food price inflation have resulted in dietary degradation across all house hold groups especially those dependent on casual wage labor Among household members young children experience the highest rates of inadequate dietary quality Expanded social protection to improve access to better quality diets for vulnerable households and individuals is therefore needed Beyond the current political crisis increased public and private investment in a more efficient and dynamic agrifood system should be a high priority This will help drive down poverty rates and ensure access to healthy diets in the near term while laying the foundation for sustained growth and structural transformation of the economy

Grape Rootstocks and Related Species Alireza Rahemi,Jean C. Dodson Peterson,Karl True Lund,2022-06-02 This book covers about 20 grape species that are vitally important in breeding programs and provide information on approximately 150 of the most familiar grape rootstocks in the world Today grape rootstocks play a fundamental role in resistance to biotic and abiotic stresses and adaptation of grapevine to different environmental conditions a factor that has opened commercial grape growing up to regions that might otherwise be overlooked Grape rootstocks can be used for adaptation to a variety of soil conditions including soil texture depth nutrient availability pH salinity lime content water availability drought and water drainage Rootstocks can also be used to shift scion cultivar the timing of various key phenological events and indirectly affects vineyard design There are around 1500 grape rootstocks developed in the world of which around 50 are commonly

used as commercial rootstock North American species account for around 30 species and two third of them have already been used for rootstock breeding at one time or another However the most commonly available rootstocks are derived from just three American species *V berlandieri* *V rupestris* and *V riparia* Therefore the most common grape rootstocks have a narrow genetic base and efforts to extend the gene pools for breeding programs by using the other species are of ongoing importance to the industry and scientific community
