Affirmative Action and Black Student Success David J. Luke, 2023-08-31 David J Luke s Affirmative Action and Black Student Success is a concrete and comprehensive exploration into diversity programs on college campuses and their impact on Black student success and outcomes Viewed over the span of 12 years three large public universities in the United States and Canada provide dynamic settings for this book s comparative focus on diversity initiatives The author identifies key regional and national differences between these settings as well as differences in the way diversity is framed and understood to illustrate how diversity programs and policies are shaped and the extent and ways in which these programs and policies then shape student experiences and outcomes The values and meanings organizations ascribe to diversity inclusion and

equity are frequently in transition and the book's compelling analysis conveys the importance of race in these contexts when racism is presumed to be in decline as is the case in colorblindness and demonstrations of multiculturalist ideals racial inequalities are concealed and remain unnoticed The author makes a range of practical recommendations and argues that clear and explicit goals about race and representation are integral in the expansion and preservation of inclusive institutional environments Unflinching in its critique and pragmatic with its recommendations this book offers invaluable analysis for university leaders diversity officers and student affairs professionals as much as it provides new insights for scholars and educators of racism higher education diversity and organizational culture

Garcia-Murillo, 2017-10-20 This book is about international students from Asia studying at American universities in the age of globalization It explores significant questions such as Why do they want to study in America How do they make their college choices To what extent do they integrate with domestic students and what are the barriers for intergroup friendship How do faculty and administrators at American institutions respond to changing campus and classroom dynamics with a growing student body from Asia Have we provided them with the skills they need to succeed professionally As they are preparing to become the educational managerial and entrepreneurial elites of the world do Asian international students plan to stay in the U S or return to their home country Asian students constitute over 70 percent of all international students Almost every major American university now faces unprecedented enrollment growth from Asian students However American universities rarely consider if they truly understand the experiences and needs of these students This book argues that American universities need to learn about their Asian international students to be able to learn from them It challenges the traditional framework that emphasizes adjustment and adaptation on the part of international students It argues for the urgency to shift

from this framework to the one calling for proactive institutional efforts to bring about successful experiences of international students

When the Fences Come Down Genevieve Siegel-Hawley, 2016-04-12 How we provide equal educational opportunity to an increasingly diverse highly urbanized student population is one of the central concerns facing our nation As Genevieve Siegel Hawley argues in this thought provoking book within our metropolitan areas we are currently allowing a labyrinthine system of school district boundaries to divide students and opportunities along racial and economic lines Rather than confronting these realities though most contemporary educational policies focus on improving schools by raising academic standards holding teachers and students accountable through test performance and promoting private sector competition Siegel Hawley takes us into the heart of the metropolitan South to explore what happens when communities instead focus squarely on overcoming the educational divide between city and suburb Based on evidence from metropolitan school desegregation efforts in Richmond Virginia Louisville Kentucky Charlotte Mecklenburg North Carolina and Chattanooga Tennessee between 1990 and 2010 Siegel Hawley uses quantitative methods and innovative mapping tools both to underscore the damages wrought by school district boundary lines and to raise awareness about communities that have sought to counteract them She shows that city suburban school desegregation policy is related to clear measurable progress on both school and housing desegregation

Revisiting educational policies that in many cases were abruptly halted or never begun this book will spur an open conversation about the creation of the healthy integrated schools and communities critical to our multiracial future
