Kwant, 2025-04-28 Level Up Your Lesson Plans Ignite the Joy of Learning with Fun and Educational Materials Tired of spending hours on lesson plans Discover strategies to streamline your planning process and maximize student engagement Access exclusive templates tools and resources designed to help you create effective lessons that align with learning standards Save time reduce stress and elevate your teaching game In Level Up Your Lesson Plans Ignite the Joy of Learning with Fun and Educational Materials teacher Teresa Kwant delivers an exciting and practical instruction book for teachers interested in adding fun into their lesson plans without sacrificing educational strategies The book walks you through how to transform your teaching materials and lessons into interactive collaborative and enjoyable learning experiences for both the teacher and students Kwant draws on personal and professional experiences to give actionable steps you can implement immediately You ll also find Tips for aligning your lessons with standards to make them both fun and engaging Strategies for building your own instructional plans for daily success with student learning Techniques to develop your own lessons plans efficiently and with high engagement Perfect for new and veteran classroom teachers looking for student engagement tips Level Up Your Lesson Plans is a hands on playbook for planning smarter so you teach better This book is the hands on creative teaching playbook the education community has been waiting for

Math Phonics - Multiplication Marilyn B. Hein, 1996-03-01 Math Phonics tm is a specially designed program for teaching the mastery of basic math concepts and facts The name Math Phonics tm is used because the rules patterns and memory techniques developed for this program are similar to those used in language arts Most of the rules are short and easy to learn Children are taught to look for patterns and use them Repetition and drill are the keys In just minutes a day your students can master the multiplication facts 0 through 12

Number Sense Routines Jessica Shumway, 2023-10-10 Following up her best selling book Number Sense Routines Building Numerical Literacy Every Day in Grades K 3 Jessica Shumway turns her focus to upper elementary classrooms Number Sense Routines Developing Mathematical Understanding Every Day in Grades 3 5 is about tapping into every child s innate number sense and providing daily connected experiences that are responsive to children s learning needs Consistent Daily Routines Work Adaptable to any curriculum Shumway s 5 10 or 15 minute warm up routines are an easy and effective way to build and solidify students number sense foundations as a supplement to any program Planning and Facilitating Your Classroom No matter how familiar the routine Shumway provides insight on how to keep daily warm ups fresh She reveals careful thinking and planning that goes into each routine and offers detailed vignettes and dialogues of how they unfold in real classrooms

Assessment Strategies As students engage in the process each routine becomes an exciting opportunity to gain insight into where they are in their understanding and help students articulate their mathematical thinking Identify Big Ideas Not only will these math routines help develop students mathematical understanding as they move towards using standard algorithms but teachers will learn to better recognize the big ideas that emerge in discussions how to encourage important strategies based in number sense and how to facilitate conversations on key mathematical concepts These routines may appear in other places but I have never seen them written in such detail and with so many variations Although she makes what she does sound easy we all know that teaching math well is anything but easy It is challenging and complex Unpacking what students are saying helping them make connections not only to the math but to each other's ideas while simultaneously recording their ideas using mathematical models visuals or equations is no easy task Jessica provides wonderful visuals examples of student work and so much more to help educators develop the tools they need to improve their practice and in so doing improve student learning From the Foreword by math coach and consultant Lucy West
