Witness to Power Mathews Phosa, 2024-11-03 Mathews Phosa has been an eyewitness to the dramatic shifts of political power in South Africa. He was involved in the Black Consciousness Movement, the UDF, and the ANC before fleeing into exile in 1985 and becoming an uMkhonto weSizwe commander in Mozambique. A lawyer by training, he was one of the first ANC members to return to South Africa to prepare the way for negotiations. He was premier of Mpumalanga during the presidency of Nelson Mandela, with whom he had a strong relationship. Under Thabo Mbeki, whom he had known in exile, Phosa was pushed to the sidelines with false accusations that he was involved in a plot to overthrow the president. Phosa had served under Jacob Zuma as an MK field commander in Mozambique and he became treasurer general of the ANC when Zuma became its president at Polokwane. But Phosa later became a vocal critic of Zuma, and they didn't speak for years until the night before Zuma's resignation. Phosa and Cyril Ramaphosa had studied law together at the University of the North in the 1970s, and fifty years later Phosa played a key role in advising him over the Phala Phala report that threatened to end his presidency. *Witness to Power* is a gripping story of underground activities, military operations, negotiations, political conflict, and intrigue. It provides fascinating new insights into the ruling party and its leaders by an ANC elder who worked with them all.

A Passion for success Sivalingum Moodly, 2022-01-01 This book titled *A Passion For Success* demonstrates forcefully how the identified individuals, despite their blindness, surmounted challenges in their own lives in order to achieve success and in doing so invariably improved the quality of lives of others. Architecture, State Modernism and Cultural Nationalism in the Apartheid Capital Hilton Judin,2021-04-08 This book is the first comprehensive investigation of the architecture of the apartheid state in the period of rapid economic growth and political repression from 1957 to 1966 when buildings took on an ideological role that was never remote from the increasingly dominant administrative legislative and policing mechanisms of the regime It considers how this process reflected the usurpation of a regional modernism and looks to contribute to wider discourses on international postwar modernism in architecture Buildings in Pretoria that came to embody ambitions of the apartheid state for industrialisation and progress serve as case studies These were widely acclaimed projects that embodied for apartheid officials the pursuit of modernisation but carried latent apprehensions of Afrikaners about their growing economic prospects and cultural estrangement in Africa It is a less known and marginal story due to the dearth of material and documents buried in archives and untranslated documents Many of the documents drawings and photographs in the book are unpublished and include classified material and photographs from the National Nuclear Research Centre negatives of 1960s from Pretoria News and documents and pamphlets from Afrikaner Broederbond archives State architecture became the most iconic public manifestation of an evolving expression of white cultural identity as a new generation of architects in Pretoria took up the challenge of finding form to their prospects and beliefs It was an opportunistic faith in Afrikaners who urgently needed to entrench their vulnerable and contested position on the African continent The shift from provincial town

to apartheid capital was swift and relentless Little was left to stand in the way of the ambitions and aim of the state as people were uprooted and forcibly relocated structures torn down and block upon block of administration towers and slabs erected across Pretoria This book will be of great interest to students and scholars of architectural history as well as those with an interest in postcolonial studies political science and social anthropology **The Stolen Bible** Gerald O. West, 2016-08-09 The Stolen Bible tells the story of how Southern Africans have interacted with the Bible from its arrival in Dutch imperial ships in the mid 1600s through to contemporary post apartheid South Africa The Stolen Bible emphasises African agency and distinguishes between African receptions of the Bible and African receptions of missionary colonial Christianity Through a series of detailed historical geographical and hermeneutical case studies the book analyses Southern African receptions of the Bible including the earliest African encounters with the Bible the translation of the Bible into an African language the appropriation of the Bible by African Independent Churches the use of the Bible in the Black liberation struggle and the ways in which the Bible is embodied in the lives of ordinary Africans *Demopolis* Josiah Ober, 2017-07-20 What did democracy mean before liberalism What are the consequences for our lives today These questions are examined by this book

Predictive Models for School Leadership and Practices Amzat, Ismail Hussein, 2018-09-07 A successful administrator is one who applies suitable or appropriate leadership styles in various situations or contexts It is crucial to investigate how effective administrators lead their organizations in challenging and difficult times as well as promote the accomplishments of their organization Predictive Models for School Leadership and Practices is an essential reference source that discusses academic administration as well as administrative effectiveness in achieving organizational goals Featuring research on topics such as teacher collaboration school crisis management and ITC integration this book is ideally designed for principals researchers academics educational policymakers and teachers seeking coverage on academic leadership and leadership models **Assessing the Viva in Higher Education** Stephen Dobson, 2017-08-24 This book makes the case for a revival in interest in the viva As an oral assessment of a treatise or dissertation or of a student's performance in art or dance the viva has a long history dating back to the time of the Greeks It can be found today in the form of professional vocational and academic vivas where a judgment of oral performance is required to gain entry into a profession or community of scholars In a time when there are scandals about students selling essays to other students the viva provides a fertile ground for probing the student to see whether they are in fact the authors of the work being assessed and know its content and how to think cognitively or otherwise Given that we actually know so little about the viva the book theorises the viva based on a unique sample of vivas that have been filmed or in which the author himself has been participant and discusses why its format is so different in Anglo Saxon languages and Latin and other languages The book offers educational policy makers and examiners a trade off between arguments in support of the viva and the demand for other ever more cost effective forms of assessment as the numbers of both undergraduate and postgraduate students threaten to increase It also argues that with demand in the

labour market for qualified graduates who are better equipped with transferable skills such as the ability to communicate complex ideas verbally in a competent well argued fashion and not merely through the use of rhetoric what appear to be cost effective forms of assessment in the short run e g written exams with standardised questions or multiple choice may actually in the long run be of less value if we are investing in a future workforce with so called 21st century communication skills If the viva were abandoned the student would be robbed of the opportunity to stage a defence ECRM 2017 16th European Conference on Research Methods in Business and Management Dr Anthony Buckley,2017 **Responsible Research**
