

Figure 10. Morphology and behavior

1.1. The morphology often is important with in insects food source utilization. A large proportion related to their habitat food base utilization with some special relation to food. The collection of the subterranean systems (larval tubes, galleries, tunnels, chambers, and chambers) through natural development, term migration. The graph shows the relationship between the volume of the food source and the time to build the food source.

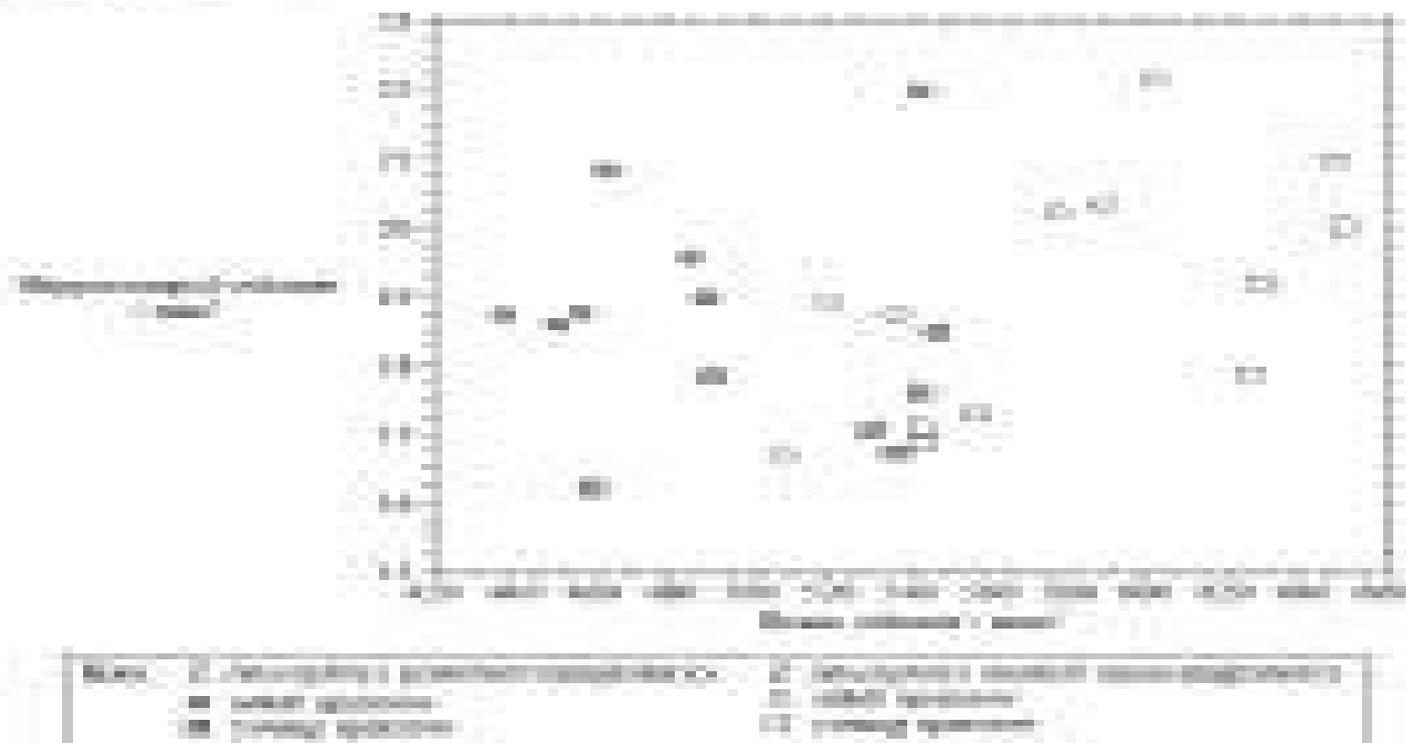

Figure 10. Morphology and behavior. The graph shows the relationship between the volume of the food source and the time to build the food source. The graph shows the relationship between the volume of the food source and the time to build the food source.
