El-Hi Textbooks in Print, 1981 The Photographer's Website Manual Philip Andrews, 2003 The Internet is the biggest communication tool since the telephone and photographers can benefit from it more than most. Many successful photographers now have their own websites whether it be to sell their work or simply exhibit it; there is no simpler, faster, and more effective way to reach an audience at any given time anywhere. This book looks at precisely that, offering practical advice on setting up a website, discussing the technical and aesthetic considerations involved in analysing a selection of successful websites, and exploring the commercial possibilities of this new ever-expanding technology. It constitutes a clear and comprehensive guide to all photographers wishing to exhibit their work and further their business by having a Web presence.
