Photography Mary Warner Marien,2006 Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art science social science travel war fashion the mass media and individual practitioners Back Cover *Video Art Historicized* Malin Hedlin Hayden,2016-03-03 Video art emerged as an art form that from the 1960s and onwards challenged the concept of art hence art historical practices From the perspective of artists critics and scholars engaged with this new medium art was seen as too limiting a notion Important issues were to re think art as a means for critical investigations and a demand for visual reconsiderations Likewise art history was argued to be in crisis and in need of adapting its theories and methods in order to produce interpretations and thereby establish historical sense for moving images as fine art Yet as this book argues video art history has evolved into a discourse clinging to traditional concepts ideologies and narrative structures manifested in an increasing body of texts Video Art Historicized provides a novel insightful and also challenging re interpretation of this field by examining the discourse and its own premises It takes a firm conceptual approach to the material examining the conceptual theoretical and methodological implications that are simultaneously contested by both artists and authors yet intertwined in both the legitimizing and the historicizing processes of video as art By engaging art history s most debated concepts canon art and history this study provides an in depth investigation of the mechanisms of the historiography of video art Scrutinizing various narratives on video art the book emphasizes the profound and widespread hesitations towards but also the efforts to negotiate traditional concepts and practices By focusing on the politics of this discourse theoretical issues of gender nationality and particular themes in video art Malin Hedlin Hayden contests the presumptions that inform video art and its history **The First Proofs of the Universal Catalogue of Books on Art** United Kingdom. Truth About Art, The Patrick Doorly,2013-08-30 Both knowledge and truth are beautiful things but the Good is other and more beautiful than they Plato Republic 508e This book traces the multiple meanings of art back to their historical roots and equips the reader to choose between them Art with a capital A turns out to be an invention of German Romantic philosophers who endowed their creation with the attributes of genius originality rule breaking and self expression directed by the spirit of the age Recovering the problems that these attributes were devised to solve dispels many of the obscurities and contradictions that accompany them What artists have always sought is excellence and they become artists in so far as they achieve it Quality was the supreme value in Renaissance Italy and in early Greece it offered mortals glimpses of the divine Today art historians avoid references to beauty or Quality since neither is objective or definable the boundaries beyond which scholars dare not roam In reality subject and object are united and dissolved in the Quality event which forms the bow wave of culture leaving patterns of value and meaning in its wake **"The" Athenaeum** ,1835 **The Plutus of Aristophanes, ed. by M.T. Quinn. (Public sch. ser).** Aristophanes,1896 *The First Proofs of the Universal Catalogue of Books on Art Compiled for the Use of the National Art Library and the Schools of Art in the United Kingdom...* ,1870 The History of Art Volker Gebhardt,1998 Covers art from the Middle Ages to contemporary movements describing major works and their cultural contexts and offering brief sketches of prominent artists for each period
