Transformation of the Psyche
Joseph L. Henderson, Dyane N. Sherwood, 2004-06-02 Written by Joseph L Henderson one of the first generation of Jungian analysts and Dyane N Sherwood a practising analyst this book is a striking and unique contribution to the resurgence of interest in alchemy for its way of representing the phenomenology of creative experience Transformation of the Psyche is organized around 22 illuminated paintings from the early Renaissance alchemical manuscript the Splendor Solis and is further illustrated by over 50 colour figures The images of the Splendor Solis are possibly the most beautiful and evocative alchemical paintings to be found anywhere and they are widely known to students of alchemy Jung reproduced several Splendor Solis images in his works yet prior to this book no one has explored the symbolism of the paintings as a series in relation to the process of depth psychological transformation This book is the first scholarly study of the paintings in their entirety and of the mythological and historical allusions contained within the images Transformation of the Psyche does not simply explain or analyze the pictures but invites the reader to participate in the creative and transforming process evoked by these images Transformation of the Psyche is a truly unique book that will be of immense value and interest to analysts

and psychotherapists as well as scholars of mediaeval and renaissance intellectual history and students of spiritual disciplines

BOOK JACKET The Image of the Feminine in the Poetry of W.B. Yeats and Angelos Sikelianos Anastasia Psoni, 2018-12-19
Modernism as a powerful movement saw the literary and artistic traditions as well as pure science starting to evolve radically creating a crisis even chaos in culture and society Within this chaos myth offered an ordered picture of that world employing symbolic and poetic images Both W B Yeats and Angelos Sikelianos embraced myth and symbols because they liberate imagination and raise human consciousness bringing together humans and the cosmos Being opposed to the rigidity of scientific materialism that inhibits spiritual development the two poets were waiting for a new age and a new religion expecting that they themselves would inspire their community and usher in the change In their longing for a new age archaeology was a magnetic field for Yeats and Sikelianos as it was for many writers and thinkers After Sir Arthur Evans's discovery of the Minoan Civilization where women appeared so peacefully prominent the dream of re-creating a gynocentric mythology was no longer a fantasy In Yeats's and Sikelianos's gynocentric mythology the feminine figure appears in various forms and like in a drama it plays different roles Significantly a gynocentric mythology permeates the work of the two poets and this mythology is of pivotal importance in their poetry their poetics and even in their life as the intensity of their creative desire brought to them female personalities to inspire and guide them Indeed in Yeats's and Sikelianos's gynocentric mythology the image of the feminine holds a place within a historical context taking the reader into a larger social political and religious space
