Books in the Digital Age John B. Thompson,2013-10-21 The book publishing industry is going through a period of profound and turbulent change brought about in part by the digital revolution What is the role of the book in an age preoccupied with computers and the internet How has the book publishing industry been transformed by the economic and technological upheavals of recent years and how is it likely to change in the future This is the first major study of the book publishing industry in Britain and the United States for more than two decades Thompson focuses on academic and higher education publishing and analyses the evolution of these sectors from 1980 to the present He shows that each sector is characterized by its own distinctive logic or dynamic of change and that by reconstructing this logic we can understand the problems challenges and opportunities faced by publishing firms today He also shows that the digital revolution has had and continues to have a profound impact on the book publishing business although the real impact of this revolution has little to do with the ebook scenarios imagined by many commentators *Books in the Digital Age* will become a standard work on the publishing industry at the beginning of the 21st century It will be of great interest to students taking courses in the sociology of culture media and cultural studies and publishing It will also be of great value to professionals in the publishing industry educators and policy makers and to anyone interested in books and their future

The New York Times Index, 2001 **Abbreviations and Technical Terms Used in Book Catalogs and in Bibliographies** Frank Keller Walter, 2017-10-12 Excerpt from *Abbreviations and Technical Terms Used in Book Catalogs and in Bibliographies* Book Catalogs and in Bibliographies In the present revision a number of errors which crept into the final proofs in spite of repeated readings by several competent collaborators thoroughly familiar with the languages represented have been corrected Several librarians and book sellers have given further aid in the revision Among them special mention is due to Mr Alfred Hafner and the staff of G E Stechert Co and to Mr Moth and Miss Plummer of the New York Public Library Although an honest attempt at accuracy has been made it is not probable that all old errors have been

detected or all new ones avoided It is hoped that such as do remain may not prove misleading however much they may vex the soul of the fastidious bibliographer Several considerations among them the expense of bibliographic publications have prevented any considerable changes in content or scope This is still a tentative preliminary list based both as to inclusion and exclusion on observation of the difficulties most frequently met in the use of ordinary trade bibliographies It can consequently claim neither well balanced proportion entire consistency nor completeness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
