**MGM Style** Howard Gutner, 2019-09-17 MGM Style is an overview of the career and achievements of Hollywood's most famous art director. Cedric Gibbons was the supervisor in charge of the art department at Metro Goldwyn Mayer film studios from its inception in 1924 until Gibbons chose to retire in 1956. Lavishly illustrated with over 175 pristine duotone photographs, the vast majority of which have never before been published, this is the first volume to trace Gibbons' trendsetting career. At its height in the late 1930s and early 1940s, Gibbons was regularly acknowledged by his peers as having shaped the craft of art direction in American film; his work was recognized as representing the finest in motion picture sets and settings. Gibbons and his associates constructed the villages, towns, streets, squares, and edifices that later appeared in hundreds of films and whose mixed architecture stood in for army camps and the wild west, Dutch New York, and Dickensian London, ancient China, and modern Japan. Inspired by the work of Le Corbusier and the Bauhaus masters as well as the 1925 Exposition Internationale des Arts Décoratifs et Industriels Modernes in Paris and Frank Lloyd Wright's experiments with open planning, Gibbons championed the notion that movie decor should move beyond the commercial framework of the popular cinema.

**Special Effects Artists** Rolf Giesen, 2014-04-24 Throughout the course of film history, artists have used matte painting, stop motion animation, model photography, process cinematography, in-camera effects, travelling mattes, optical printing, and physical and floor effects to entertain audiences. These are the special effects artists in this book. The biographical entries provide career synopses and movie credits spanning the early years of cinematography through the end of the mechanical age of filmmaking, marked by Steven Spielberg's Jurassic Park and its combination of conventional effects and computer-generated images. An extensive filmography, numerous stills, a glossary, a bibliography, and index are presented.
