both a response to the authority of Michelangelo and a unique testimony to artists mobility in the period As Pereda shows Torrigiano s life and work constitute an ideal example to rethink the geography of Renaissance art challenging us to reconsider the model that still sees the Renaissance as expanding from an Italian center into the western periphery A *Biographical History of the Fine Arts, Or, Memoirs of the Lives and Works of Eminent Painters, Engravers, Sculptors, and Architects* Shearjashub Spooner, 1865
