between Christendom and Islam from the artistic and commercial to the ideological and political Dackerman notes how Gutenberg s development of printing shares an inextricable relationship to the 1453 Ottoman siege of Constantinople While Gutenberg s workshop produced a call to crusade and other publications antagonistic to the Muslim East D rer s prints she shows instead emphasize instances of affiliation between Christendom and Islam A breathtaking work of scholarship D rer s Knots shows how the artist s prints of Muslim subjects give expression to the interconnectedness of Christian Europe and the Islamic East
