Robert Beeres, Gwendolyn Bakx, Erik de Waard, Sebastiaan Rietjens, 2016-07-28 NL ARMS 2016 offers a collection of studies on the interrelatedness of safety and security in military organizations so as to anticipate or even prepare for dire situations. The volume contains a wide spectrum of contributions on organizing for safety and security in a military context that are theoretically as well as empirically relevant. Theoretically the contributions draw upon international security studies, safety science, and organizational studies. Empirically, case studies address the reality of safety and security in national crisis management, logistics, and unconventional warfare, focusing amongst others on rule of law during missions in which expeditionary military forces are involved in policing tasks to restore and reinforce safety and security and on the impact of rule of law on societal security. The result is a truly unique volume that may serve practitioners, policymakers, and academics in gaining a better understanding of organizing for the security-safety nexus.
