tackling the subject of the Church for instance or the bloated body of tomes on various aspects of Pneumatology This book tries to provide the bewildered and intimidated student with a primer that is at once introductory and incisive approachable and informative It will help those training for ministry to recover their fascination for the subject of theology and how it could apply to their future ministry Subjects covered include The Quests for the Historical Jesus Third Article Theology The Missional Church Liberation Theology Feminist LGBT and Queer Approaches Postmodern Faith and the Emerging Church Nonviolent Atonement

The Framework of Military Leadership Murat Şengöz, 2020-01-27 This book provides an eclectic and meta analytic study on the factors affecting military leadership and its components taking into account both current and future security paradigms The contemporary security environment is characterized by an increase in the number of wars and more human induced problems than ever before The first duty of armies today is generally the establishment of security Today s battles are carried out in a vague and flexible warfare environment which can be transformed rapidly For this reason military leaders need to be more versatile with rapid decision making capacities In order to realize their duties they have to focus more on the quality of their military leadership which is critical to the establishment of secure and peaceful environments Today high level army commanders have to behave more like diplomats intellectuals and academics than ever before
